Vestal's Rose Catalogue

1900

Jos. W. Vestal & Son
Little Rock, Arkansas
Chenille Plant.

(Acalypha Sanderi.)

This is the most distinct and striking ornamental plant introduced in many years. It is a native of the South Sea Islands, and may well be called a forerunner of the rare and beautiful tropical plants from our new possessions in the Philippine Islands. It is of easy and rapid growth and blooms continuously. The plant is of branching habit, healthy foliage, and the flowers are most remarkable. The flower spikes, which appear in pairs from the axils of the leaves, grow from two to three feet in length. They are of bright crimson color, drooping and mixing among the green foliage with charming effect. It will be extensively used as a pot and window plant everywhere. For bright and curious effect it has no equal. Wherever the plant has been exhibited in this country and in Europe it has attracted universal attention and admiration. It has received silver and gold medals and premium certificates at the flower shows this autumn. Our illustration is a very truthful one, representing the plant as shown by us at the flower show, November, 1896. We offer strong, well rooted plants of our own growing, mostly showing the flower spikes.

FIRST SIZE—From 2 1-2 inch pots, 25 cents each.
EXTRA SIZE—From 3 1-2 inch pots, 35 cents each.

Three Rare and Beautiful Roses

The “Blushing Bride” Rose.

Manriel Graham. The latest addition to the Mermet family, being a sport from that fine variety, identical with it in everything save color, which is creamy white, suffused with delicate pink. Price, 15 cents each.

New Deep Pink Tea Rose,
Maid of Honor. A grand sport from the famous “Bridesmaid,” of a darker color: a rich, bright glowing deep pink, which, combined with all the excellent qualities of the parent, will doubtless make it the most valuable pink rose in cultivation. It is a free bloomer, with large, perfect buds and flowers, and a vigorous, healthy grower, valuable alike for summer and winter blooming. Fine young plants, 15 cents each.

The Fine Crimson Rose,
Souvenir de Wootton. Bright magenta red, passing at base to fine violet crimson, richly shaded; flowers are large, full and regular, with thick leathery petals and delicious tea scent; makes beautiful buds, and is recommended both for open ground and conservatory. Price, 15c each.

One Each of the Above Roses for 35 Cts.

The “Century” Collection

OF

Six Beautiful New Roses

ON BACK COVER OF THIS BOOK.

1. Star of Lyon, or Etoile de Lyon. This magnificent Tea rose is a rich golden yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are deep, rich and full, excellent substance, very sweet. Surely one of the very best and most beautiful yellow Tea roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the summer. Price, 15 cents each.

2. Meteor. A velvety red everbloomer of the deepest glowing crimson, as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open rose, a free bloomer and a very excellent pot rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. The best rich red rose for the garden ever introduced.

Price, 15 cents each.

3. Mosella. The yellow Soupert. This splendid novelty is almost identical with that of the original Soupert, a cross of the Polyantha and the beautiful Tea rose, Madame Falcon. It blooms in profuse clusters of three to five flowers, which are very double, ball shaped and open like a Camellia flower. The petals are tinted white, on beautiful light yellow ground, extending to the middle of the petals. The plant is double, and everblooming. Offered for the first time this year. It is sure to be a popular companion to the original Clothilde Soupert.

Price for nice young plants, 10 cents each.

4. La France. We have always given this the first place—the queen of roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a rose can be. No variety can surpass it in delicate coloring—silvery rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10 cents each.

5. President Carnot. New Hybrid Tea rose. It is a rose of the largest-size, beautiful both in bud and open flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem. No crowding as in the case of so many roses that bloom in clusters. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitancy in saying that this charming rose will become as popular as La France, as it has all the good qualities of that rose. Price, 15 cents each.

6. Souv. de Jeanne Cabaud. We pronounce this to be, without question, one of the finest roses in this book. It is one of the really grand varieties. The flowers are extra large, very deep and double; of great substance. It is perfectly shaped. Color superb, outer petals coppery yellow, center apricot and Carmine. Simply grand. Has the appearance of a rich Carmine rose set in the heart of a golden yellow rose. Price, 20c each.

The Beautiful “Century” Collection for 75 Cents. The two sets, front and back of this Catalogue, for $1.

Printed by Tunnah & Pittard, 112 W. Third St., Little Rock, Ark.

All orders for less than 50 cents must have 10 cents added for postage and packing. Please do not send personal check, as it costs us from 15 cents to 25 cents to collect them.
IMPORTANT SUGGESTIONS

WHICH, IF PROPERLY OBSERVED, WILL HELP US TO FILL ORDERS PROMPTLY AND SATISFACTORILY.

READ BEFORE ORDERING.

HOW TO ORDER. WHAT PURCHASERS SHOULD DO.

MUCH TROUBLE, DELAY AND DISAPPOINTMENT MAY BE AVOIDED BY OBSERVING THE FOLLOWING DIRECTIONS.

Please send the Remittance with the Order. We do a strictly cash business, and have no open accounts in the mail order department.

Orders Promptly Answered. All orders received by us are filled immediately on their arrival, except in the height of the busy season. They are then filled in rotation as quickly as possible.

Our Selections. When purchasers prefer leaving the selections to us, they should mention in a general way what they are wanted for, and we will select the best varieties for their purpose.

Agents. We employ no agents, and are only responsible for orders sent direct to us.

Our Guarantee. We guarantee all plants to reach their destination in a good growing condition.

Our Responsibility. As stated above, we guarantee all goods to reach their destination in a live condition, but when we have done our part, there is nothing we can do to ensure a sound arrival. Many plants will be broken at unloading, or otherwise injured, and we cannot guarantee plants when neglected.

Errors. We make them; so does every one, and we will cheerfully correct ours. If you think we have made a mistake, tell us so, or write to us. Try to do so good naturedly; if not, do it anyway. Do not complain to anyone else, or let it pass. We want an early opportunity to make right any injustice we may do.

Should You Receive two or more Catalogues alike, which sometimes occurs, have the kindness to retain such as you do not need to others who will likely want plants. By doing so, confer a double favor. We will also be grateful for your recommendations of our establishment to your friends wanting plants. A copy of our Catalogue will be furnished to friends requiring plants, or to new subscribers, on receipt of their address.

When Sending Club Orders please give full name and address of each member of the club, so that we may enter their names on our books and forward them our Catalogues as issued.

When Corresponding be careful always to sign your name the same way. Ladies sometimes send an order in their own name, and perhaps write again inquiring about the order in their huswband's name. This often causes us much annoyance and waste of time. Do not mix your order and correspondence together. If you wish to write concerning the order, write it on the back of the order or on separate sheet.

By Our Careful Manner of Packing we are able to send plants, etc., to all parts of the United States with perfect safety. Please favor us with an early order while stock is complete.

Send Postoffice Money Order or draft on Eastern cities. If more convenient, money can be sent by express money order with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt. Do not send individual checks, as it costs from $15 to 25 cents to get them cashed. It is not safe to send currency in letters unless registered. Money sent by express must be prepaid by the sender. Money may be sent at our risk only when the above conditions are complied with.

It Will Facilitate the Dispatch of Business if with each order the Order Sheet is used, and the name and address are written plainly and in full; also direct by what conveyance the articles may be sent. Please always particularly state whether plants are to be sent by mail or express. Express is always best where it can be done, and plants will be larger. When left to us we will use our best judgment.

New Low Express Rates. We call attention to the new low express rates, which is a reduction of 20 per cent from the regular merchandise rate, at which plants have been expressed heretofore, and also that packages of less than 100 pounds are billed at 100 pound rates. Remember, plants can be shipped at a lower rate than any other class of merchandise. No orders sent C. O. D. unless at least one-third of amount is sent with order.

Particular Attention Is Invited to Our List of Roses. Our stock is large and of fine quality, and we are confident it will give entire satisfaction. We have a large and well grown stock of two year old roses on hand of nearly all classes, ranging from one to a half to two feet in height, according to kinds, which will be found very useful for immediate effect. For full particulars see body of Catalogue. When selections are left to us the very finest varieties and the most vigorous plants will be sent, as all orders are selected under our personal supervision. A liberal discount to those who interest themselves to obtain orders for us. FOR TERMS SEE LAST COVER PAGE.
A FEW HINTS ABOUT

...ROSE CULTURE.

What Varieties to Plant, Protection, Etc....

PLEASE READ BEFORE ORDERING

How to Proceed. The first and primary consideration is to buy good plants, for no matter how careful and attentive one may be, good results cannot come from poor stock. Buy your stock from a reliable florist, and beware of him who would give you sometimes another.

Outdoor Cultivation of Roses. Roses may be grown to perfection in ordinary garden soil. Select, if possible, the most sheltered sunny location for planting, avoiding the close proximity of large trees, whose dense foliage and extending roots absorb all the life sustaining nutrition of the soil; young trees and dwarf shrubbery will not be hurtful.

Preparation of Soil. Should the soil you have at disposal be naturally poor, it may be made fertile by substituting a quantity of loam, which can readily be obtained under the sod by the roadside or from the fields. To still further enrich the soil, and where it is accessible, add to each wheelbarrow load of loam about one-third its bulk of well rotted stable manure, also some sand, if there be a lack of this constituent. Spade to a depth of twelve inches, thoroughly mixing and mellowing; and having proceeded thus far, we have made a substantial foundation for future good results.

Winter Protection. This is not deemed of so much importance as formerly, as plants that fail to survive, or whose vitality has been impaired by the rigor of winter, can now be readily replaced, and at such trifling expense that it is thought by many scarcely worth the time and trouble involved to secure their preservation.

To those of our friends and customers who are, however, interested in the matter of "winter protection," a few remarks will suffice. Do not cover your plants too soon; a nip of frost will not hurt them, but will help to ripen and mature them. Such material as leaves, hay, straw, light manure, pine or cedar boughs, corn fodder, etc., will afford excellent protection. Sufficient should be given to prevent the roots from freezing, but considerable light and circulation of air should not be excluded. In the spring, wait until the weather is settled before uncovering; then prune the plants, taking care to cut off all dead or discolored wood.

Fertilizers. Fine, well decomposed stable manure is the best for general purposes. If this cannot be obtained, fine ground bone or commercial fertilizers may be employed, but they should be applied conservatively, for if used too freely they are likely to injure the plants. None but such fertilizers as are free from acids should be used. Manure applied in the fall will serve as a partial protection over winter; if in the spring, it will be as beneficial as a mulch.

Unpacking Plants. When the plants are received, if for any reason it is desired to defer immediate planting, place the plants in the cellar or any moderately warm place, protect them from sun, set them upright, admitting the free circulation of air, and water freely from time to time. A slight covering of soil around the roots will be beneficial. Should they have a withered appearance, caused by an unusual delay in transit (which seldom occurs), soak them in lukewarm water for an hour or so before planting to restore their vitality.

Planting. The best time to plant is during the spring or early summer months. Those who wish to plant early should observe the homely rule of waiting until after corn planting time. If you are so situated that you have no means of telling when that time arrives, we would advise that planting in open ground be deferred until all danger of frost is past. Having prepared the ground, set the plants about twenty inches apart. Do not hesitate to place the roots well below the surface of the soil, arranging them, as far as possible, in their natural position. Cover over, pressing firmly down upon them and in around the stem. After planting, water freely, and if the sun be strong, protect them for the first few days with a covering of newspaper or other suitable covering. Water judiciously; that is, not too freely, and daily until they show signs of having become established. Do not plant if the ground is wet, as the soil will become baked, and thus endanger the safety of the plants. During the presence of protracted drought the plants should be watered daily in the evenings.

Pruning. The different varieties of roses differ very much in habit of growth; many are neat and compact, requiring little or no attention, while others of the same class are vigorous and straggling, and demanding much more care than the limits assigned them. Pruning, therefore, is a matter to be governed by the judgment of possessor of the plants. We will add, however, that plants of persistent growth should be trimmed back each fall or in early spring about one-half to two-thirds of the season's growth. Where plants, apparently healthy, fail to mature the buds which they bear, remove a large percentage of the undeveloped buds and imperfect blooms and prune severely. Trim back about one-third when, after planting, they shed their leaves and exhibit signs of weakness; this gives the roots a chance to become vigorous.

General Remarks. All our roses are grown here at our establishment under our personal supervision, grown under natural conditions in ordinary soil and not fertilized or forced into quick growth. We claim for them that they are the best grown roses in the world. All our plants are inspected from time to time, and all inferior specimens rejected; thus none but the best are sent to our customers. Every one ordering from us must depend upon getting plants true to name in every instance. We do not offer fruit or shade trees.

This Catalogue and the autumn edition contain complete lists of everything we have to offer.
Duchess Salviati. This is a grand new Tea rose, of very striking and attractive color, beautiful chrome yellow, elegantly tinged with orange, passing to buff, prettily flushed with pale rose, buds and outer petals exquisite orange red. The buds are large, long and pointed; the flowers extra large, quite full and very sweet, entirely distinct and valuable. Price, 15 cents each.

Catherine Mermet. Distinct and beautiful. A very beautiful Tea rose, valued highly for its elegant buds; color clear shining pink, with delicately shaded amber and fawn center; large globular flowers; one of the very finest varieties; a strong, healthy grower and a good bloomer; equally desirable both for open ground planting and forcing under glass. Price, 10 cents each.

NOTE.—No Two Year Old Plants of LIBERTY Will Be Offered This Year.
American Beauty. This rose has become as famous as the Marechal Niel. The flowers of this grand rose are so eagerly sought that they sell in the flower stores of the large cities during the holiday season at the extravagant price of from $1.50 to $2.00 for a single bud or flower. Indeed, the market is never fully supplied with them, even at this high price. Why is this? There must be a reason. It is because of its large size, rich color and delicious fragrance. One of its chief attractions is its foliage, which will show you what long, stiff stems and heavy foliage it can be cut with. It is a hardy rose, of the largest size, having the everblooming qualities of the Tea rose, with the delicious odor of the Damask or Moss rose. It is the sweetest of all roses. In color it is a deep brilliant red, shading to a rich carmine crimson. American Beauty is, like Marechal Niel, difficult to start from small plants; therefore we advise our customers to buy strong plants of it. This rose will never be sold cheaply, for the reason it is hard to propagate. We advise planting the larger size.

Price, for young plants, 20 cents each; large two year old plants, 75 cents each.

The Grand Rose.

Coronet. Sweetest, largest and freest blooming Hybrid Tea rose in cultivation. It is a cross between that superb variety, Paul Neyron, and Bon Silene, grand old favorites. Coronet is a true everblooming Hybrid Tea, identical in form and size with Paul Neyron. No description or illustration can do justice to the remarkable beauty and splendor of its flowers. They are grand in every way. From the time the plant is four inches high it blooms steadily, bearing in unbroken continuity, on good stiff stems, magnificent large flowers that frequently measure from four to six inches in diameter. The form is full, deep, and wonderfully double. It is full to the center, and when entirely open the flowers do not look unlike Paeonies. In the bud the color is a deep rich carmine, which, as the flowers open, lightens to a soft, clear pink, with each petal distinctly edged with silvery gray. The effect is beautiful. The fragrance is simply delicious. Probably the most valuable and satisfactory rose for general cultivation sent out for many years.

Price, strong healthy plants for blooming at once, 20 cents each; 3 for 50 cents.
President Carnot. This new rose is away above the average in many good qualities. It is a rose of the largest size, beautiful both in bud and flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem—no crowding, as in the case of so many roses that bloom in clusters. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitancy in saying that this charming rose will become as popular as La France, as it has all the good qualities of that rose, and at the same time is distinct in every feature. It is so handsome and distinct that it attracts immediate attention. It is indeed a wonderful rose. Price, fine young plants, 15 cents each; large, 50 cents.

"Souvenir" de la Malmaison. There are, we presume, but few persons who cultivate roses that are not familiar with that old, tried and true variety, Malmaison. (This rose is known in the South as "Souvenir.") It has been the one standard variety in rose gardens for the past thirty years; and, in fact, there is not a rose extant that rivals it for general cultivation. This grand old variety, when used as a bedding rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Exquisitely fragrant. A noble rose. Price, 15 cents each.

We wish we could impress all our friends with the beauty of these two roses. A plant of Malmaison in the yard of a neighbor, that has stood out unprotected three winters, had flowers on it the past summer that by actual measurement were over seven inches in diameter. It looked like a huge Paony. They are both true everbloomers, and everybody should have them. They will delight you.

SPECIAL OFFER.—These two magnificent roses, in thrifty young plants, 25 cents.
Madame Caroline Testout,  
THE GIANT LA FRANCE.

Probably no rose stands higher in public estimation today than La France, and when we say that this elegant new rose is a close counterpart of La France, we have said enough to insure its being planted by vast numbers of people. We don't know that it is any better than La France, but it is decidedly deeper and more brilliant in color and a larger flower, and is as good in other ways. It is a wonderful rose. The petals are large, and of elegant La France form; exquisitely edged and bordered with clear silver rose. Both flowers and buds are extra large, and of very elegant form; the color is brilliant satiny rose, deepening at the center to clear red. It is of excellent substance, keeps its color well, and its splendid large, globular flowers impress everyone with a sense of its superiority and great beauty.

Price, 10 cents each.  
Large plants, 50 cents.

Belle Siebreech. A truly superb rose, the result of a cross between La France and Lady Fitzwilliams. Color imperial pink. The greatest authority on colors in America pronounces it a true solid pink of the richest shade, a rare color. The flowers are sweetly perfumed and large, beautifully formed, and of that long, tapering shape, with high center, and when half blown the petals reflex in a graceful manner.

Price, 15 cents each.

Perle des Jardins. (Pearl of the Garden.) This magnificent yellow Tea rose still retains its position as one of the very finest and most beautiful roses of its color ever introduced; the demand for it constantly increases as its great value becomes better known, more plants being wanted every year. The color is clear golden yellow, an indescribably rich and beautiful shade, and entirely distinct from any other variety; the flowers are extra large, full globular form, with great depth and substance, richly perfumed, and exquisitely beautiful in every way. Succeeds well in open ground, but is especially valuable for forcing for cut flowers.

Price, 10 cents each.  
Large plants, 50 cents.

Champion of the World. Recommended as being entirely hardy, equaling the tender sorts in profusion of bloom. From early summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich, glossy pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest roses; thus it is certain to be unequaled for the garden or cemetery.

Price, 15 cents each.

New Crimson Rose,  
Princess Sagan. The flowers of this variety are the richest crimson of any rose in our vast collection; a single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness. It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking, "What rose is this?"

Price, 10 cents each.
New Light Pink Hybrid Tea Rose,

Mrs. Robert Garret. The size is enormous; indeed, the flowers are larger than those of any Hybrid Tea rose we ever saw, while their form, both in bud and full blown flower, is artistic and beautiful. The buds are unusually long and pointed; the open flowers full and double. The color is a pleasing soft pink; a little deeper than Daybreak Carnation, totally distinct and unlike anything yet seen in roses. It is a strong and vigorous grower, producing its flowers freely throughout the year, on long, stiff stems. We regard this as one of the great new roses, which will attain instant popularity as soon as its merits become known.

Price, 15 cents each; large plants, 50 cents.

Souv. de Jeanne Cabaud. We pronounce this to be, without question, one of the finest roses in this book. It is one of the really grand varieties. The flowers are extra large, full, very deep and double; of great substance. It is perfectly shaped. Color superb, outer petals coppery yellow, center apricot and carmine. Simply grand. Has the appearance of a rich carmine rose, set in the heart of a golden yellow rose.

Price, 20 cents each.

New Deep Pink Tea Rose,

Maid of Honor. A grand sport from the famous “Bridesmaid,” of a darker color; a rich, bright glowing deep pink, which, combined with all the excellent qualities of the parent, will doubtless make it the most valuable pink rose in cultivation. It is a free bloomer, with large, perfect buds and flowers, and a vigorous, healthy grower, valuable alike for summer and winter blooming.

Fine young plants, 15 cents each.
Large plants, 50 cents.

Suzanna Blanchet. One of the best roses. There are hundreds of roses not as good as this variety, and there are few, indeed, as valuable. Outdoors it grows splendidly, and blooms with such freedom as to make it one of the most satisfactory roses for general cultivation. Color beautiful pale flesh, passing to silvery white, shaded with fine rosy amber; large, finely pointed buds; handsome.

Price, 10 cents each.

Be sure to include “Liberty” in your order—the best Scarlet Crimson rose of the year.
Four Beautiful La FRANCE ROSES.

We will send the four roses described on this page for 40 cents.

Striped La France.
(MADAME A. VEYSSÉ.)
Imagine a lovely rose with shape and fragrance of La France, of a rich creamy pink, with a silvery gloss, growing deeper at base petals, the whole beautifully etched and streaked with delicate carmine. We find it the most attractive and showy Tea rose of recent introduction.

Price, 15 cents each.

Duchess of Albany, (or Red La France).
This is a superb new rose; resembles La France, but is more vigorous in growth and much deeper in color, hence the name Red La France seems very appropriate. It is a continuous and very free bloomer, producing a great abundance of lovely buds and flowers all through the season. The flowers are extra large, very double and full, and remarkably fragrant; color brilliant rose pink, exquisitely shaded. It is highly recommended as one of the largest, sweetest and best roses for general planting, both in open ground and for greenhouse culture. It belongs to the Hybrid Tea class, but is usually placed with the Hybrid Perpetuals, because it resembles them in form and habit of growth, etc. It is reasonably hardy, but should have a good covering of leaves or straw before severe weather.

Price, 15 cents each.

La France. Perhaps no rose is better known or more highly valued for general planting, both in open ground or under glass, than La France. It is a Hybrid Tea, very beautiful in form and color; an early and constant bloomer, producing a wonderful profusion of buds and flowers all through the growing season; it is exceedingly sweet and handsome, and altogether one of the loveliest and most desirable roses one can plant. Both flowers and buds are of grand size; the color is a lovely shade of peach blossoms, changing to amber rose, elegantly tinged with crimson; delicious tea fragrance; exceedingly sweet, very full and wonderfully beautiful; commences to bloom soon after planting out, and continues until stopped by freezing weather. Moderately hardy, but requiring protection in winter.

Price, 10 cents each.

Augustine Guineoisseau, (or White La France).
The best recommendation we can give of this magnificent rose is that it is a white La France, having just a breath of rose tinted blush delicately clouding the depths of its broad, lustrous petals. The flowers are extra large, very full and finely formed, and delicately perfumed. It blooms all through the season, and is a rose that every one will like to have.

Price, 10 cents each.
The Peerless New Tea Rose, "Maman Cochet."

One each of Maman Cochet and White Maman Cochet, in same order, for 25c.

Maman Cochet. This rose attracted our attention from the very first time we saw it in flower. It comes from France—the country that has produced nearly all of our best roses. We are not alone in our admiration of it, as nearly all the visitors to our establishment the past season have been unstinted in its praise. It is a vigorous grower, with beautiful, pretty foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. You can get an idea of the exquisite flower from the engraving. The color is a deep rosy pink, the inner side of the petals being a silver rose, shaded and touched with golden yellow. We pronounce this the finest rose by far that has been introduced from France in the past five years. Be sure to try it, as it will not disappoint you. We can with full confidence recommend this rose. Price, 15 cents each.

White Maman Cochet. It blooms all the time. While we give the honor of being the queen of all the pink garden roses to Maman Cochet, White Maman Cochet is easily queen of all white garden roses. Many of the popular white roses sink into insignificance when compared with this superb variety. With a few exceptions the new productions of later years possess little or no merit. In this new variety we have a pleasing and striking exception. It is a continuous bloomer, producing successive crops of buds and flowers in great profusion. The buds are beautifully formed, with large petals of great substance. A vigorous and healthy grower, and we believe it to be the best white rose in cultivation for garden purposes. Price for nice young plants, 15 cents each.

The Queen of all Pink Garden Roses.
Star of Lyon.

(Etoile de Lyon.)

The flowers are very deep, rich and full, excellent substance; very sweet. Surely one of the very best and most beautiful yellow Tea roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the winters here uninjured in open ground without protection, and blooming nicely all through the summer. 

Price, 15 cents each; large plants, 50 cents.

The Queen of White Roses,

Kaiserin Augusta Victoria. This beautiful rose has not only a royal name, but is a royal rose as well. There are white roses that have elegant buds, but when full blown are not all that is desired. Then again, there are white roses that are elegant when full blown, but have poor buds. This rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds and flowers in the greatest profusion. The buds are very beautifully formed, with large petals of the best substance. Shows no center when fully open. Color pure, snowy white, and when you add a rich perfume, coupled with a vigorous growth, what more could you ask? This rose is an easy winner over all competitors in its color.

Price, 15 cents each; large plants, 50 cents.

Countess Eva Starhemburg. The bud is long in form, opening into a fine double flower of great beauty and heavy texture. Color is a creamy yellow, shading to ochre at the center, borders of the petals touched with rose. Received gold medal and numerous certificates of merit. Of fine, free growing habit. We are pleased with this rose.

Price, 15 cents each.

Mad. Lambard. A first class rose for bedding; extra large full flowers; very double and sweet; color a beautiful shade of rosy bronze, passing to salmon and fawn; an elegant rose.

Price, 10 cents each.

J. B. Varrone. There is no question about this being a truly splendid rose. It has the form, color and substance of those very choice and valuable varieties which only come occasionally. Superb elongated buds, and extra large, vase shaped blooms; color an intensely scarlety crimson, very rich and bright, beautifully shaded with salmon yellow or buff rose at center. Very beautiful and sweet.

Price, 15 cents each.

New Tea Rose.

Bridesmaid. Here we have a new rose, a sport from that old standby, Catherine Mermet. All know that Catherine Mermet takes precedent as a pink rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time, under every condition of weather and surroundings.

Price, 10 cents each; large plants, 50 cents.

New Everblooming Tea Rose,

Gen. R. E. Lee. A new southern rose, entirely distinct among yellow roses, and very beautiful and unique in color. It is an everblooming Tea, moderate and branching in growth, and very lavish at all times of its richly colored, delicately scented buds and flowers. Color soft apricot yellow in the wide outer petals, warming to a brighter salmon yellow in the center. Shade of cadmium and orange occasionally deepen the heart of the flower, and in sunshine it is brightened all through by a delicate tinting of salmon pink. The buds are quite long and quaintly pretty in form, the tips of the large outer petals swirling away from the full center with a charming fluffy effect. The outer petals are much wider and longer than the inner ones, and when the first rose is half blown, form a pretty, pale tinted cup, filled with brighter flutings. The flower is large, and opens widely in a somewhat flattened form, showing a center that is very full, double and sweet.

Price, 15 cents each.

The Royal Rose,

Princess Bonnie. Princess Bonnie is one of the loveliest of the new everblooming roses. It has no superior and very few equals. Its color is something indescribable; a richer, deeper crimson was never seen in a rose, while its fragrance is even more subtle and delicate than that of La France. It is a profuse bloomer and as easy of cultivation as the most ordinary rose. Indeed, one finds in Princess Bonnie every attribute one longs for in the rose, and it might well be called the perfection rose.

Price, 10 cents each; large two year old plants, 50 cents each.

NO ORDER ACCEPTED FOR AMOUNTS LESS THAN 25 CENTS.
Madame Welche. A beautiful rose. The flowers have great depth and substance, and are of fine globular form, with broad, thick petals, and large, finely shaped buds. The color is a beautiful flower of soft amber yellow, deepening towards the center to orange or coppery yellow, delicately tinged and clouded with a pale, ruddy crimson. Both flowers and buds are remarkably sweet. It is fine for the conservatory, and none better for the open ground.

Price, 15 cents each.

Grace Darling. One of the most elegant roses ever our pleasure to behold. Strong, vigorous grower; color a porcelain rose, elegantly shaded with vinous crimson; a decided color, but never quite obscuring the ground of beautiful yellow upon which it rests. The colors seem to stand out separate and distinct. Very sweet. A veritable beauty.

Price, 15 cents each.

Mad. Hoste. A popular rose. Extra large flowers and superb buds, very full and delightfully perfumed; color soft canary yellow, deepening at center to pure golden yellow, beautifully flushed with pale amber; edges and reverse of petals creamy white; excellent for garden or pot culture, and is particularly valuable for forcing for cut flowers; is a good, healthy grower, blooming quickly and continuously in open ground or house.

Price, 15 cents each.

Safrano. A fine old rose. This is a splendid old time rose that has not been superseded by any newcomer of its class or color. It is a variety of great value, particularly for outdoor planting. It grows vigorously and has the vitality necessary to produce a continuous crop of flowers from early summer until late in the autumn; quite hardy. It is valued very highly for its beautiful buds and handsome flowers. The color is a bright apricot yellow, changing to orange and fawn, sometimes tinted with rose. Very fragrant.

Price, 10 cents each.

A Lovely Pink Rose,

Mad. Abel Chatenay. This is a wonderfully strong, healthy growing variety, with rich, bright foliage. A grand bedding rose, as it is a profuse and continuous bloomer; flowers of good size, very double, with slightly recurved petals; elegant buds, just the right size and shape for buttonhole use. Color rosy carmine, shaded with salmon.

Price, 10 cents each.
"Burbank" Rose.

A PERFECTLY HARDY, FREE FLOWERING, EVERBLOOMING ROSE.

"The color is, perhaps, more like cherry crimson than pink. It has none of the dead color of Hermosa, and is as different in form as possible, although even more free flowering and much more continuous in bloom—in fact, absolutely perpetual. It is, therefore, adapted as well to house culture as to bedding, so absolutely hearty with rich, perfect health of foliage." The above is the introducer's description. With us it seems a much improved Hermosa, and very desirable.

*Price, 10 cents each.*

EVERBLOOMING ROSE TRIAL COLLECTION.

20 CHOICE ROSES.

Very Fine Plants.

Our Selection, $1.00, Post Paid.

Clara Watson. A free blooming Tea rose of English origin, with many distinct features. The flowers are very graceful, resembling Bridesmaid in form, and are produced in remarkable profusion. For freedom of bloom this variety is specially valuable. The buds are very beautiful and are supported on long stems, making it desirable for cutting. The color is salmon pink, very difficult to describe. Will take a place among the best roses.

*Price, 15 cents each.*

White Bougere. "A free bloomer, and clean, healthy grower; blooms of great substance; pure white; good stiff stem; as pure a white as Niphetos, and will produce 50 per cent more blooms than Bride."

*Price, 15 cents each.*

Mad. Margottin. This is a grand rose; always a favorite; very large and perfectly double; flowers elegantly perfumed; color a beautiful dark citron yellow, with bright red center; a strong grower and quite hardy.

*Price, 10 cents each.*

Mad. Joseph Swartz. A fine, free blooming rose. A lovely Tea rose: extra large, globular flowers, very full and sweet; pure white, tinged and shaded with pale yellow and rosy blush; very beautiful rose; a remarkably constant and profuse bloomer.

*Price, 10 cents each.*

Madame Elie Lambert. This is a superb, rich, new rose, carrying such fine combinations of color that it is sure to please. It is so thick in petal as to resemble soft velvet to the touch. It belongs to the Tulip class; salmon pink, with the center of coppery rose, elegantly edged darker. We have had many letters from the South praising the great beauty of this rose, probably the most distinct rose we grow. The petals are so thick and velvety as to hardly resemble a rose.

*Price, 15 cents each.*

Enchantress. This is beyond question one of the best of recent European introductions. We have given it a careful trial, and find it to be of unusual merit. It blooms with astonishing freedom, bearing its large globular flowers in immense clusters; it is as free blooming as any rose in our collection. The color is creamy white, slightly tinged with buff in the center; of vigorous growth, fine foliage, and highly valuable both in pots for late autumn and winter blooming, as well as for general planting in the open ground during summer.

*Price, 10 cents each.*

Mlle. Helena Cambier. Color at first a salmon rose, varying to apricot yellow at base of petals, changing to rosy flesh with deeper center in the open flowers. The plant is a robust, bushy grower, with erect stems and beautiful bronzy green foliage; a prolific bloomer. Flowers large, very double, with full high centers.

*Price, 15 cents each.*
New Hybrid Tea Rose,  
Triumph de PernetPerc. Originated and sent out by Jean Pernet, one of the most celebrated rose growers of France, who has already given us some very beautiful roses. He considers this the triumph of his life (the name translated would read, "Triumph of Father Pernet"), and besides his endorsement it has received the commendation of the highest European authorities, and as far as we can judge it is well worthy of them, and promises to be one of the very finest of the Hybrid Tea class. The flowers are extra large, having broad, thick petals, and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Very brilliant and beautiful. Price, 15 cents each.

Madame Falco. Color apricot yellow. An old rose, not superseded by a better variety of its color. Flowers of medium size and fullness, but very beautiful in bud, and of the easiest culture. Price, 10 cents each.

Comtesse de Frigneuse. In color, charming; in freedom of bloom, second to none. The buds are long and pointed, and of good size; the color is a deep golden yellow, with softer shade inside of petal. As a yellow rose this takes rank next to Marechal Niel. Price, 15 cents each.

New Hybrid Tea Rose,  
Madame Schwaller. Like Puritan, this rose has the strong, firm growth of the Hybrid Perpetuals, the same form and finish of flowers, being especially beautiful when full blown. It is very free in bloom, and has the fragrance of the old June roses. The color is a bright rosy flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A rose from which we hear very flattering reports from all directions. This grand rose has more perfume than any that we offer. Try it. It is magnificent. Price, 10 cents each.

Souvenir de Catherine Guillot. An extra fine variety, producing a long, pointed bud, of the color of the Austrian copper. The open flower is larger and full, and a wonderful combination of color. This belongs to the changeable class of roses, having on the same bush red, yellow and pink roses. Very highly colored. The best of this class of variable roses. Price, 10 cents each.

New Tea Rose,  
Snow Flake. It is a lovely new white Tea—the freest flowering rose we have ever seen. The rose was introduced by C. Straus & Co., Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white rose they grow; that they had counted 153 buds and flowers on one plant in a single day, and the plant less than a year old. Nice young plants of this novelty for 10 cents each.

Rainbow. This new rose from California, which no doubt will be extensively planted, was awarded a silver cup by the State Floral Society. The color is a lovely shade of deep coral pink, striped and mottled in the most unique manner with intense crimson, and elegantly colored with rich golden amber at center and base of petals. It makes beautiful buds, and the flowers are extra large, very sweet and of great depth and substance. Price, 10 cents each, large plants, 50 cents.

Fine Crimson Tea Rose,  
Papa Gontier. A grand red Tea, of fine crimson shade and silken texture (as distinct from velvety texture). The bud is fine size and graceful form, and you would never suspect from it that the rose is only semi-double. Extremely free, both in growth and bloom. Very long and beautifully leaved stems can be cut, the foliage being very dark and heavy. One of the best, and a perfect bedder. Price, 10 cents each; large plants, 50 cents.

New Tea Rose,  
Corrinnna. The tints of color blended in the flowers of this beautiful rose render it so attractive and distinct from all other Tea roses that the blooms exhibited have created quite a sensation. They may be described as of flesh color, shaded with rose, and suffused with a warm flush of tawny copper; they are of large size, full and of excellent shape, and very freely produced on strong stems. We feel assured that this rose will be equally appreciated for decorative purposes, cutting, and for exhibition. The growth is vigorous, and for a Tea rose the plant is very hardy. Price, 15 cents each.
Duchess de Brabant. The people's rose. In the desire to obtain new varieties of roses, rosarians and dealers are too often prone to overlook old, standard sorts which are unquestionably meritorious. Some sorts are too good to be crowded to the wall by new aspirants for honors, as witness the Gen. Jacqueminot, Marechal Niel, La France, Malmaison and many others, and to this class belongs the Duchess de Brabant. Roses come and go, but these go on forever. Duchess de Brabant unites in a pronounced degree the highest attributes of a garden rose. It is vigorous, never fails to produce flowers, healthy, rarely diseased in any way; large, full blossoms, beautiful in bud or open flower; a beautiful shade of soft rosy flesh, deepening to warm pink and bright rose; delightfully fragrant. Price, 10 cents each.

New Golden Yellow Tea Rose, Media. This is the grandest of all yellow roses, and should be planted by everybody. Its flowers are of the largest size, perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness unapproached by any other rose, being a rich, deep golden yellow, with decided sulphur tints. Price, 10 cents each.

New Tea Rose, Princess Beatrice. A pure Tea, of strong habit, heavy foliage, coloring deeply, after the style of the Perle; flower stems stiff and upright and bright red, carrying large buds of an exquisite color; outer petals varying from canary yellow, edged lightly with bright rose color. From its first opening the petals turn their edges backward, displaying the bright apricot center. The open rose is exquisitely beautiful, very double, and lasting well when cut. Strongly tea scented. It has proved a fine garden rose. The buds and bloom stand erect, being borne on strong stems, each plant having from twenty to fifty of its charming flowers. They almost say, "I am a Princess, indeed," they are so winsome and lovely. Just imagine a coppery or ruddy yellow rose with a distinct red edge on each petal. Price, 15 cents each.

Marie Guillot. Anyone who has never seen this splendid variety growing at its best in the open ground cannot conceive of the lovely beauty of its large, bold and handsome flowers. We recommend it as one of the most reliable white Tea roses in cultivation, especially for outdoor culture. It is first class in every respect. The color is pure snow white, sometimes faintly tinged pale yellow. The flowers are magnificently made, extra large, full and double; the buds are very pretty; fragrance very sweet. Of its color, it has many kinds, but as yet has no equals. Price, 10 cents each.

Bon Silene. A grand old rose. This remarkable rose was introduced in 1839, and up to this time no new variety has superseded it, a fact that bears ample testimony of its valuable qualities. It is superb in every way. Perhaps the most noted feature is the immense size and beauty of its buds, which cannot be surpassed for bouquets and decorative purposes. The color is deep rose, sometimes bright rosy crimson, occasionally pale light rose. In the open ground it grows to perfection, producing crop after crop of its beautiful flowers in unbroken continuity. Price, 10 cents each.

Souvenir of Wootton. An American variety of great promise, with the following good qualities: Color velvety red, equal to Jacqueminot; perfume which cannot be excelled; the most prolific bloomer in existence, every shoot containing a flower bud; habit exceedingly vigorous, and in foliage quite equal to the American Beauty; it is a full double rose, and is good in bud, half open or fully expanded. This superb rose is unquestionably one of the finest varieties ever introduced for either summer or winter blooming. We have tried this for hardiness in the open ground, and find that it will live out all winter south of the Ohio river. It is one of the most satisfactory roses either for the amateur or commercial florist to grow. Price, 15 cents each; large plants, 50 cents.

Marie Van Houte. A beautiful rose. This exceedingly lovely variety cannot be surpassed by any rose of its color. In the open ground it is truly magnificent. The flowers are extra large, very double and full, and are deliciously scented. The color is pale canary yellow, passing to rich creamy white, shaded with pale rose. It grows strong and sturdy, and blooms constantly with great freedom. As an outdoor rose for bedding, massing or for single specimens it cannot be exceeded. Price, 10 cents each.

Price, 10 cents each; large plants, 50 cents.
The Great Soupert Set....

Everblooming Rose,

**Clothilde Soupert.** The color is French white, deepening to rosy blush in the center, exceeding in distinctness of shadings the well known Malmaison. Its greatest value lies in its compact, vigorous habit and wonderful profusion of bloom, even the smallest plants being literally covered with flowers. The form and substance of the flowers are so perfect that the hottest weather does not cause a deterioration of either, so that even in midsummer a bouquet of splendid buds and open flowers can be obtained. Valuable as it is for garden purposes, it is even more so for pot culture, and ranks as first for blooming in the dwarf house.

*Price, 10 cents each.*

New Yellow Soupert,

**'Mosella.** This splendid novelty we have just secured from Germany. Its origin is almost identical with that of the original Soupert, a cross of the Polyantha and the beautiful Tea rose, Madame Falcot. It blooms in profuse clusters of three to five flowers, which are very double, ball shaped and open like a Camellia flower. The petals are tinted white, on beautiful light yellow ground, extending to the middle of the petals. The plant is dwarf, bushy and free blooming. We take great pleasure in offering this fine rose. It is sure to be a popular companion to the original Clothilde Soupert.

*Price, 10 cents each.*

The Beautiful New

**Pink Soupert.** This bright new rose is a very free flowering variety, much resembling Hermosa, but more double and flowering more freely; it shows the Polyantha blood in the full cluster of bloom, and it will make a handsome contrast bedded or grown with the C. Soupert. The flowers are not quite so large, full and handsome as our original Soupert, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with C. Soupert.

*Price, 10 cents each.*

New Tea Rose,

**Christine de None.** This beautiful new red Tea is a very charming rose, and promises to be one of the best of recent introduction. It is particularly valuable because red has been a very scarce color among Tea roses, and this one seems excepted. It is a splendid grower, making a large sized, graceful bush, with bright, deep green foliage; a constant and very free bloomer; the flowers are well borne upon strong stems, and are usually large and handsome; the buds are long and finely pointed, and the color is a very rich maroon, or deep purplish red, passing to lake, center sometimes streaked with silvery white; the petals are finely imbricated, and the flowers are deliciously sweet. It is highly recommended as a valuable and in every way desirable rose for general planting.

*Price, 10 cents each.*

New Double Tea Rose,

**Golden Gate.** An exceedingly fine, large double Tea rose. The buds are long and pointed, opening into a large well shaped flower of creamy white, beautifully tinted with golden yellow and pink, produced on fine long stems. The plant is a healthy and vigorous grower, a fine and constant bloomer.

*Price, 10 cents each; large plants, 50 cents.*

The "Blushing Bride" Rose,

**Mauriel Graham.** The latest addition to the Mermet family, being a sport from that fine variety, identical with it in everything save color, which is creamy white, suffused with delicate pink. A color intermediate between Mermet and Bride, and as dainty as possible to imagine. A nice addition to our forcing varieties.

*Price, 15 cents each.*

**Francisca Kruger.** A remarkably fine rose. A strikingly handsome rose, one of the very best for open ground culture. It would be hard to name a better or more satisfactory rose. It is especially adapted to bedding or massing. Holds its foliage under adverse conditions. The flowers are deeply shaded coppery yellow in color, and are of large size. A strong and vigorous grower, and a good and constant bloomer. Francesca Kruger is just the rose that will give you the utmost satisfaction.

*Price, 10 cents each.*

**PRICES IN QUANTITIES.**

Where marked 10 cts. each.....6 for 50 cts.: $1 per doz.
Where marked 15 cts. each.....4 for 50 cts.: 10 for $1.
Where marked 20 cts. each.....3 for 50 cts.: 7 for $1.
THE BEAUTIFUL TULIP ROSE,

A Magnificent New Everblooming Climber,

Climbing Souv. de Wootton. This splendid new variety is a sport from that famous rose, Souv. de Wootton, and is identical with it except that it is a strong, rampant climber, and producing in wonderful profusion its superbly formed flowers, which are bright magenta red, passing to violet crimson, richly shaded. The flowers are large, full and regular, with thick, leathery petals, and deliciously tea scented. Truly this is a magnificent and valuable new rose.

The Grand New Rose,

Climbing Malmaison. This rose is an exact counterpart of Malmaison in foliage and flower, but is a rampant climber. You cannot tell the flower or foliage from that old time, tried and true variety, Malmaison. It will be a welcome addition wherever climbing roses are planted. Just imagine a rose climbing over the side of your house or enclosing your veranda in its luxuriant foliage, bearing flesh colored roses of immense size, and double to the center. We can cheerfully recommend this rose to all our patrons.

Price, 15 cents each.

Price for nice young plants, 15 cents each; 4 for 50 cents.

Mad. de Watteville.

The Beautiful Tulip Rose,

Mad. de Watteville. This grand variety, sometimes called the Tulip Rose, is one of the most beautiful varieties we have ever sent out, and is very largely planted by those who know its beauty. The color is a remarkable shade of creamy yellow, richly colored with rosy blush; the petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full and highly perfumed. For planting in the open ground Mad. de Watteville takes front rank, being a hardy, vigorous grower, standing the sun and weather well; a profuse bloomer, and unsurpassed for cutting.

Price, 15 cents each.
MRS. ROBERT PEARLY,

Or CLIMBING KAISERIN AUGUSTA VICTORIA.

The first white hardy everblooming climbing rose. This is by all odds the most sensational rose of modern culture. It is an offspring of that grand variety, the best pure white hardy everblooming rose, Kaiserin Augusta Victoria. The flowers are something grand; they are the equal of the finest and most beautiful cut flower roses; of splendid substance; extra large, full, deep and double, and are produced on long, stiff stems. The buds are long and pointed. Both in bud and flower it is truly beautiful. It has a fragrance that is delicious—just like cherry blossoms. If you want a quick growing, hardy, climbing, sure-to-bloom rose, one that will give you flowers this season, this is the only white variety that will do it. Price, 20 cents each.

Mary Washington. Its flowers are of medium size; pure white, perfectly double to the center, sweet, and borne in endless numbers all summer. Its fragrance is tinged with old fashioned musky flavor, so much admired in olden times. Price, 15 cents each.

Gloire de Dijon. A magnificent rose, one of the finest in every respect; large, perfectly double and tea scented; color rich creamy white, beautifully tinged with amber and pale blush. Price, 15 cents each.

James Sprunt. Deep cherry red flowers, medium size; full, very double and sweet; a strong grower and profuse bloomer. Price, 15c each.

Lamarque. A fine climber for greenhouses and conservatories, and in the south for outdoor culture; pale canary yellow, almost white; beautiful buds, large full flowers, very double and sweet. Price, 15c each.

Reine Olga d’Wurtembourg. Fine, large, very double flowers, borne in clusters; color clear cherry red, margined with crimson; very handsome and exceedingly sweet. Price, 15 cents each.

Chromatella (Cloth of Gold). Clear bright yellow; large, very full and double; much prized for a pillar or veranda rose. Price, 15 cents each.

Claire Carnot. Buff or orange yellow, with peach blossom center; medium size; full and compact flowers; delightful tea scent. Price, 15c each.

Climbing Perle des Jardins. Same as the grand old Perle des Jardins, and equally good in every way, but of vigorous climbing habit; valuable for training to rafters, etc. Price, 15c each.
The Grandest of all New Roses....

**Climbing Meteor.**

This new rose is one which will make ten to fifteen feet of growth in a season, and show a profusion of bloom every day. Foliage strong, healthy and luxuriant; buds exquisite; flowers large, beautifully shaped, and of that rich, dark, velvety crimson color seen only in Jacqueminot. We do not hesitate to pronounce it the finest rose in existence for summer blooming; as it will make a large growth and is loaded with its glorious blossoms all the time. **Price, 15 cents each.**

**A Magnificent Rose,**

**Marechal Niel.** Our stock of this splendid old favorite was never in better condition or in larger supply, hence we wish to call particular attention to it. It is essentially a magnificent rose for southern cultivation, where it attains a degree of perfection seldom seen in any rose. The buds and flowers are superb; extra large, very double and deliciously perfumed; they are, in point of beauty, the first of their class. The color is deep golden yellow. Marechal Niel is highly esteemed for general planting in the South, where it makes a splendid showing during the summer months, and for greenhouse or conservatory culture. It is by far the most desirable rose we know. Its merit as an outdoor rose has, however, made it famous in the South, and we recommend it more highly than ever to our Southern friends.

- *Small size, 10 cents each.*
- *Medium size, 25 cents each.*
- *Large size, 50 cents each.*
- *Extra large size, 75 cents and $1.*

**Climbing White Pet.** It gives us pleasure to introduce to our friends this charming white climbing rose. It is a hardy, true everblooming rose of such vigorous growth as to soon cover the entire side of a house. The blooms are pure white, of medium size, come in clusters and are very fragrant. This new rose will not disappoint you. Give it a trial. **Price, 10 cents each.**

**Mad. Alfred Carriere.** Extra large, full flowers, very double and sweet. Color a rich, creamy white, faintly tinged with pale yellow; exceedingly beautiful; a strong, hardy grower and free bloomer. **Price, 10 cents each.**

**Reine Marie Henriette.** A strong growing and climbing rose, making a grand pillar rose in the South. Flowers full and well formed; rich, brilliant crimson. A grand rose and a fine companion to Marechal Niel. Try it. **Price, 10 cents each.**

We will supply twelve two year old roses of our selection, all strong plants and good varieties, for $2.50.
ROSES OUR SPECIALTY.

Large two year old Roses for immediate blooming.

ACH successive year brings an increase in the demand for large roses, until now the sale of our two year old roses for immediate effect has reached enormous proportions. The reason is not far to seek. The plants being older than the mailing size, and much larger, make a finer appearance at once, and give a greater abundance of flowers. It is not to be inferred, however, that the mailing size plants are of an inferior grade. They will bloom as quickly, but not as profusely, as the two year old plants; in short, the only difference is in size, and therefore the comparative yield of bloom.

The two year old roses we offer are much larger and better than those usually sent out. Success is positively assured with these pot grown plants. Our collection contains a wide range in shades and colors, and in shape of the buds and flowers. On account of their age and size these plants must be sent by express, as they have balls of earth and cannot be mailed. We can supply most of the varieties early in the season in this size.

PRICES OF TWO YEAR OLD ROSES.
Where small plants are priced at 10 cents each, two year olds will be 25 cents each; those at 15 cents each, large ones 25c each; where 20 cents, large ones 50 cents each; and where priced at 25 cents, large ones for 25 cents.

Our "Trial Order" Collection of Roses, Three Months from Planting.

Our Magnificent Trial Order.

OUR INTRODUCTION COLLECTION OF TWENTY BEAUTIFUL EVERBLOOMING ROSES, All Labeled, for $1.00.

This is a Standing offer of ours to send twenty choice Roses, each one labeled, for the small sum of One Dollar.

This offer is only made to induce you to give us a trial, and it will be to our interest to send only a fine assortment of good roses, well rooted, that are sure to bloom freely the first year.

There Will Be No Discount Allowed On This Offer, but if you induce four of your friends to club with you, inclosing us $5.00, we will send either by mail or express five of our sample collections of twenty roses, and for your trouble will allow you to select any one of our magnificent new fifty cent roses, or five of our elegant twenty-five cent roses. The name and address of each of these five persons must accompany the order.

REMEMBER, we send twenty choice everblooming roses of our selection for $1.00, but you must not include it in your order when discounts are taken. We send six collections of our twenty sample roses for $3.00.
Augustine Halena. Extra large and handsome; full, well developed buds and flowers, having good, thick, wax-like petals of excellent substance; color clear, bright rosy red, verging to deep, rich crimson; very beautiful; nice, erect habit of growth; clean and healthy; with good, substantial foliage; a constant and profuse bloomer; very fragrant.

August Comte. A fine all round rose—one that we recommend—very odd and entirely distinct. Color rose red, outside petals carmine red, with broad border of a deeper color, and the center salmon colored rose ochre. Flowers have been exhibited five inches in diameter. A remarkable variety of great growth.

August Meatal. Buds crimson red, large, full red flowers, changing from purple to crimson red; fragrant and very beautiful; very choice.

Beauty Inconstant. Color bright capucine red, shaded and lined with deep carmine and bright yellow; very changeable but at all times of a very novel and distinct color.

Bougere. The coloring of this rose is simply exquisite. The base and back of the petals are a bright yellow, the center highly colored with glowing copper and rose. We highly recommend it.

Contesse Lily Kinsky. Flower large, moderately full, of beautiful form, bluish white with yellow shadings; center almost ochre yellow; very fragrant; very beautiful.

Chevalier A. Ferrario. A vigorous grower, with large flowers; quite full; petals very large, deep, clear crimson. A remarkably fine red variety.

Countess Riza du Parc. China rose; base of petals coppery yellow, medium full and globular; very sweet. One of the best.

Countess Anna Thun. A strong, bushy grower, with flowers freely produced on short, stiff stems. It shows the characteristic of a good bedder. It is of immense size, and of the most lovely and perfect form imaginable. Color a beautiful citron yellow, with coppery and peach center, shading to orange salmon and silvery pink, the colors blending nicely. Certainly a wonderful rose, both in size and color.

Devoniensis (MAGNOLIA ROSE). Beautiful creamy white, with rosy center; large, full and double.

Dr. Grill. A coppery yellow flower, with a fawn yellow reflex. An entirely new color, and one of great brilliancy. The outer petals are large, round, shell shaped, and inclose a mass of shorter petals, which are of a brilliant color.

Ernest Metz. A strong growing, free blooming rose of great merit, with large, handsome, full flowers and beautiful fragrance. Large pointed buds; color clear satiny pink, edged with blush, the center crowned with crimson. It is an unusually strong, sturdy grower, forming a compact bush; in the open ground it produces superb flowers with remarkable freedom. We recommend this variety as an excellent rose.

Henry M. Stanley. This grand new everblooming rose was raised from Madame Lambert and Countess Riza du Parc, and is recommended as a charming variety of unusual beauty and permanent value. The color is a rare shade of amber rose, delicately tinged with apricot yellow toward the center. Reverse of petals clear buff rose; the flowers are of good substance, extra large, finely formed and very full and fragrant.

Hermosa. An excellent rose; blooms in fine clusters, large, very double and fragrant; color beautiful clear rose; a constant bloomer and one of the best hardy sorts.

Isabella Sprunt. Bright canary yellow; large beautiful buds; valuable for cut flowers; very sweet tea scent; profuse bloomer; an old and popular variety.

Jeanne Pernet. Beautiful light yellow, suffused with salmon yellow; medium sized but pretty buds.

Letty Coles. Soft, rosy pink, and deep, shaded with crimson; extra large, full form; exceedingly sweet; superb.

Léon XIII. In the line of the old Nipietos. Copper white, shaded to light yellow, with salmon center; vigorous in growth.

La Paetole. Pale sulphur yellow; large, full and double; beautiful buds; very sweet, tea scented.

Princess Venosa. A strong grower, producing a long bud; flower large and beautifully formed; color nankeen yellow, with shadings of carmine.

Princess de Hohenzollern. A promising new Tea rose, a seedling of Papa Gontier; of strong, robust growth, producing quantities of flowers several shades darker than its parent. Color a bright, dazzling red, outside petals darker than the center ones; very large and fine shape, and more vigorous than most red varieties.

Souvenir d’un Ami. A lovely Tea rose; extra large globular flowers, very full and deliciously sweet. Color a deep rosy flesh, beautifully shaded with rich carmine edges, and reverse of petals silvery rose; vigorous grower and profuse bloomer.

Souvenir de Madame Pernet. Beautiful soft silvery rose, underlaid with yellow; large, full flowers; handsome in bud.

Sappho. Buds fawn color, suffused with rose. The opening flowers are shaded yellow and tawny buff, centers deep, bright yellow; large, full and globular. It produces its blooms with extraordinary profusion, even for a Tea rose. The petals are large and of much substance. A splendid rose to keep after being cut.

Sylph. Very white, tinted peach; large, high centered with deep, stiff petals; erect, free habit, foliage beautiful; very free in bloom. A promising bedding variety, as it is very hardy for a Tea.

Souvenir de Victor Hugo. Bright China rose with copper yellow center; beautiful in form when in bud; not a grey full; a fine grower.

Viscountess Folkstone. The flower is delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it is like a fine white Peony, but without a suggestion of stiffness.

Waban. A valuable new rose. A sport from the well known Catherine Mermet, but differing in color, being a bright carmine pink, deepening toward the center. A valuable forcing rose.
SELECT LIST OF ROSES--Continued.

10 cents each; 16 for $1. Your selection.

Marquis de Vivens. Bright carmine on the edges of outside petals, changing to China rose towards the middle and becoming gradually straw color at the base; reverse of petals flesh color, shaded sulphur yellow.

Mad. Pelissier. A most beautiful yellow bedder; broad, creamy outer petals, deepening to fine yellow in the center. Petals very large and shell shaped.

Mlle. C. Perreaut. A seedling from Souvenir d'un Ami, but of larger size and better form than its parent; of a vigorous habit, and productive, the equal of any rose of the year. Color of flower bright rose, with a silvery shade, with magnificently shaped flowers; comes well recommended.

Madame Caroline Kuster. Beautiful orange yellow, clear and distinct, fine full form, large and very double, highly perfumed; very desirable.

Mrs. Pierpont Morgan. This new Tea has been pronounced one of the finest roses ever introduced. It is a sport from Madame Cusin, but it is much more robust and free blooming, with flowers and foliage much larger than that variety. The long stemmed buds and flowers are elegantly shaped, fragrant and of fine substance; color intense bright cerise or rose pink.

Ophelia. Pure snow white, large size, very full and double; tea scented; an excellent sort. This magnificent white variety is always pure white, even in the hottest summer weather.

Queen's Scarlet. This is without doubt the very best of all red roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in roses; a bed of this rose produces a mass of red equal to a bed of geraniums. It is planted everywhere on account of its color and freedom of bloom. None better. Try it.

Our Popular Bedding Collection, Double and Single Geraniums.

THIS is probably the most popular collection we offer. Many wish to procure Geraniums for a bed in the yard and do not care for named varieties, but want just as many bedding varieties as they can get for the money. To all such we would recommend this collection. It will contain such varieties as are most suitable for bedding. Unless ordered otherwise, each collection will contain all different varieties, about half each of double and single varieties, but they will not be labeled. Order early and pot them so that you will have good, strong, well established plants by the time the ground is in condition for bedding out, and you will be rewarded by an abundance of flowers throughout the season. Remember, these are not rooted cuttings, but are all strong, well established plants, that have been grown in pots. Price: 10 for 50 Cents; 20 for $1; 100 for $4.

THE CEMETERY COLLECTION

Of Six Superb, Pure White, Hardy, Everblooming Roses

FOR 40 CENTS.

There are few homes that have not a loved one resting in the cemetery, and but few that would not give 40 cents to beautify the grave of that loved one. We offer this fine set of choice white roses for this purpose.

Clothilde Soupert. The best of all roses. Literally loaded with blooms, pure white, pink center. Very beautiful.

Price. 15 cents each.

The Bride. An elegant white rose, and very free flowering.

Price. 10 cents each.

Marie Guillon. This rose is as perfect in bud and flowers as a Camellia. Pure white in color.

Price. 15 cents each.

Ophelia. Creamy white, very large, perfect double flowers. A most excellent sort.

Price. 15 cents each.

Price. 10 cents each.

The Queen. New. This rose is a beauty. Pure waxy white. A most remarkable rose.

Price. 10 cents each.

We will furnish these six choice white roses for 40 cents. No discount on this offer. In ordering say, "Cemetery Collection of Roses."

Do not be blinded by large Discounts—if our Discounts are not so large as some others, our List Prices are much lower.
The Choicest Geraniums.
THE PEOPLE'S FLOWER.

ON THIS PAGE AND THE PAGE FOLLOWING are offered the best geraniums—new and old—of the hundreds of varieties now in commerce. The new geraniums here offered are the choicest in the world. To be appreciated, their superb flowers must be seen. They are beautiful beyond description. Be sure to include some geraniums in your order.

A group of scarlet geraniums is a dazzling sight from June to November. No flowering plants are more grown, and certainly none are more suitable for large beds where a mass of bloom is desired. When used in connection with alternantheras, coleus, and other foliage plants, they make an attractive display.

PRICE: Nice Small Size, 10c each; 15 for $1. A Larger Size, 15c each; 8 for $1.

New Doubles.
Alexandre. Bright magenta pink, upper petals shaded with orange; blooms in large truss on long, straight stems.
Annibal. An attractive and distinct variety; purplish crimson, upper petals distinctly marked with orange scarlet to one-half their length.
Alpine Beauty. What S. A. Nutt is among dark reds, Alpine Beauty is among double whites. It is very dwarf, with stiff, neat foliage; the flower stems are long and stiff. Both floret and truss are of unusual size, and it has stood the sun finely, proving a grand bedder.
Bruantil. The giant among geraniums. We consider this the best bedding geranium of all. Foliage strong, striking, and of most perfect habit. Color of the flower is a bright vermillion red of the most pleasing shade. The flowers are absolutely perfect in shape, color and make up; trusses exceptionally large and borne in immense spherical balls, often measuring eight inches in diameter.
Colbert. Clear rose violet, base of the upper petals marked with fire red; plant very free flowering; floret like a rosette. Taken altogether this is a very novel and distinct sort.
Contesse de Harcourt. Double, snow white. Large, beautifully formed florets in large trusses, so abundantly produced as to form a snowbank. Stands the sun perfectly and always remains pure white. The finest double white variety yet produced.
Double Guinea. A decided improvement on Re Umberto, which is a good enough recommendation. It is a better grower, stands the sun better, and is of a very bright orange yellow color. Florets and trusses large and of fine form.
Dr. Despres. Large trusses, of very large, round, well opened flowers of a variable color, sometimes bright violet with vermilion spots on the upper petals, and again bright blood red, brightened with violet spots, making a beautiful contrast. This is one of the most beautiful varieties we have seen among the dark colors, and is sure to find favor with all who grow it.

Alpine Beauty.

Dr. Thouvenel. Very large, double flowers, of bright, clear, cherry red. A grand variety.
Firebrand. Pure brilliant scarlet; good truss, free grower and bloomer.
L. Contable. Plant of perfect habit, very free, large, full, double flowers of a beautiful rose color. An extra fine and beautiful variety.
La France. A fine white variety of low and bushy growth, one of the best white geraniums we have ever seen. The flowers are waxy white, produced in great profusion.
Lafayette. The truss is round like a sphere; floret of fine form and full of petals; of a very pleasing and novel shade of dark red.
La Colosse. Gigantic flowers, semi-double, of the most elegant form; color a very rich, dark shade of orange vermilion. A very desirable addition to the "sun proof" or Bruant varieties.
Marquis de la Costa. Bright rosy pink, touched with salmon and marbled in pink and white. A very beautiful color.
New Double Geranium,

M. Ott. Very large, circular flowers; magenta shading to pure violet; upper petals blotched crimson; strong grower and a free bloomer. One of the hundreds.

Mad. Guibert. The trusses are immense in size; the plant grows in excellent form with but little attention; florets very large; beautiful, pure rose color.

Marvel. Rich crimson scarlet; fine large flowers and trusses. Very free flowering and one of the best bedding sorts.

Prince Henri d'Orleans. Enormous trusses of rose colored flowers, shading and marbling into salmon; extra fine and a grand grower. Color very lovely.

S. A. Nutt. One of the best of the dark crimson varieties; flowers are of perfect shape and large size; the trusses massive, and produced in great number; the habit is close, compact and branching. A thorough trial of this variety leads us to recommend it as unequaled in its class; an excellent bedding and a perfect pot plant.

Tour Eiffel. This variety resembles the now famous sort, "Bruant," in form of trusses and florets. Color bright orange scarlet. Flowers semi-double.

White Swan. In the White Swan we have the finest double white geranium ever introduced. It is suitable for bedding, and flowers as profusely as the best single varieties. It is a dwarf, compact growing variety, with handsome banded foliage of a light, healthy green. The perfect flowers are unsurpassed for cut flowers. They are spotless, snowy white.

LARGE GERANIUMS To meet the demand for large geraniums we have grown a fine stock, including all the best varieties, in 4 inch pots. These plants will be 8 to 10 inches high, well branched and set with buds and flowers. Too large to mail. Can only be sent by express, purchaser to pay charges. 15 cents each; 8 for $1.
Best Single Geraniums.

PRICE: Small Size, 10c Each; 15 for $1. A Larger Size, 15c Each; 8 for $1.

L. Swartling. Single; center of the floret is scarlet flame, shading to salmon; floret large and truss immense. A fine grower.

Mrs. E. G. Hill. Single; soft light salmon, bordered with rosy salmon and veined with deep rose; vigorous grower, with broad, heavily zoned foliage; large trusses held well above the foliage. A splendid bloomer and an exceptionally good variety for all purposes; one of the best.

Mrs. J. M. Garr. Probably the finest of the single white bedders; semi-dwarf; the plants have been a cloud of bloom all summer; florets nicely shaped and of medium size.

Mad. St. Pol. Bridoux. Plant free blooming, large trusses well raised from the foliage; flowers large, center white, covered with veins and marblings of rosy orange carmine, all the petals bordered with orange carmine, the center brightened with an aureole of bright orange.

Mad. C. Bajac. This variety has very fine trusses; the center of the floret is white, each of the five petals regularly bordered with rosy carmine, which gradually shades into pale violet before reaching the center; a very handsome mingling of color. Has splendid large trusses; blooms with great freedom; grand.

A. Chardin. A very distinct geranium of a beautiful new color, nankin rose, veined in a still lighter shade. Enormous trusses on long stems.

Chance. English round flowered, clear bright shade of pure cerise; immense circular flowers, as round as a dollar, nearly three inches across, very distinct. An unusually fine variety.

Dr. Marmoteck. Massive trusses of large flowers, with lower petals of bright violet, changing to carmine at the base and marked in white; the upper petals have white extremities, marbled and laced with violet and carmine; very beautiful.

Gloire Poitevine. Large trusses of immense size. Rich red, shaded orange, with a white eye.

Hubert Le More. One of the finest pink geraniums of any class, and is sure to become a great favorite. The plant is of excellent habit, low and branching, and fine for bedding or pot culture; flowers are large and of a beautiful rosy pink shade, with white eye; single flowered.

Iris. A brilliant shade of maroon crimson; one of the finest varieties yet produced. Its brilliant color, immense size and extra large trusses all attract instant attention.

J. D. Cabos. Soft rosy pink, trusses of largest size, composed of large flowers; a new and delightful color in the Bruant type. Dwarf habit and a profuse bloomer. Very valuable.

Princess Alix. English round flowered; enormous florets, perfectly circular; color clear pale rose; a magnificent variety. The floret measures 2 3/4 inches in diameter.

Sam Sloan. Velvety crimson; a good bedding variety.

Ville de Poitiers. There is nothing finer than this in the Bruant race. Color a rosy scarlet, very clear and bright; trusses very large, composed of enormous florets nearly three inches across.

New Single Geranium.

Vincennes. A new American variety; the best single pink variety we have yet seen, new or old; a dwarf grower and a marvel in freedom of bloom. Stands the sun perfectly; has a nice compact truss of lasting quality; stems long; pure pink, shading to salmon, bright and showy; foliage nicely zoned (see cut); superb.

W. A. Chalfant. Dazzling scarlet, florets circular and slightly cupped, forming a magnificent truss; heavy Bruant like foliage, assuring it a good bedder.

W. Bealby. Very large flower, with round, regular petals, clear scarlet at top, marked carmine at base; habit of plant especially fine for pot specimens.
Geraniums With Fragrant Foliage.

The fragrant geraniums are a treasure. Their leaves are beautiful as well as fragrant. Some are more finely cut and variegated, as will be seen in the description given. For making bouquets, and as a background for buttonhole flowers, they are indispensable.

*Price. 10 cents each; three for 25 cents.*

**Dr. Livingston.** A skeleton leaved, rose scented, with finely cut foliage.

**Lemon.** Small leaves, growing erect, of a delicious lemon fragrance. One of the most pleasing varieties.

**Mrs. Taylor.** A distinct variety of the scented geranium, with a strong rose fragrance and large, deep scarlet flowers. Combines free flowering qualities with fragrant foliage. Very useful for summer cut flowers, and as a pot plant for winter cannot be surpassed.

**Nutmeg Scented.** Small leaves resembling those of the apple scented.

**Oakleaf.** Scented, dark green foliage, blotched or spotted with blush purple, and blush rose flowers with maroon spot; a good winter flowering plant.

**Rose Scented.** Large, broad, finely scented leaves.

**Transit.** An elegant new variety of the rose geranium, with gracefully cut foliage.

---

**IVY LEAFED GERANIUMS.**

A splendid class of climbing or trailing geraniums, adapted for baskets, vases, rockwork and training on trellis. They have fine, thick glossy foliage, which of itself is of sufficient beauty to warrant their cultivation, but they also have the charming attraction of possessing some beautiful flowers as well as foliage. They bloom with the greatest freedom during the spring and summer; flowers vary from white to dark rose and crimson.

*Price. 15 cents each.*

**P. Crozy.** A grand hybrid between the zonales and ivies, having the foliage of the former, but very heavy in texture, while the forms of truss and florets are found only among the ivies; the color is soft, bright scarlet, with veinings of maroon; the habit is perfect, and it is a grand bedder. One of the finest novelties of the year; extra profuse in bloom.

**Incomparable.** Trusses very large, florets immense and very regular form; full color; an exquisite shade of rosy Carmine. Perhaps the finest ivy to date.

**Souvenir Charles Turner.** One of the handsomest ivy geraniums ever introduced. Florets 2½ inches, in trusses six inches across. The color is a deep, bright pink, approaching scarlet in color; the upper petals feathered maroon; quite double.

**Jean d’Arc.** Double; a grand variety; the nearest approach to a pure white in the family.

**La Rosiere.** Flowers of perfect shape, double and of good size; rich, glistening rose color of a lovely shade.

---

**Variegated Leaf Geraniums.**

*Price. 10 cents each; 3 for 25 cents.*

**Arbutus.** Golden leaved variety, bearing profusely light salmon pink flowers.

**Happy Thought.** A tri-color geranium, with very dark green foliage, having a light, creamy, almost white center, with a dark band about the light zone. The flowers are bright and scarlet.

**Marshal McMahon.** Large, handsome, golden yellow leaves with a beautiful, broad, dark bronzy red zone.

**Mrs. Pollock.** A bronze variety of the best type.

**Prince Bismarck.** A good dark bronze; one of the best.

**Corinne.** This is one of the finest bronze geraniums we have ever seen for all purposes; its large double flowers of the most brilliant scarlet, together with the beautiful golden yellow of its foliage, make it very showy.
"INDIAN SUMMER" COLLECTION

Early Flowering Chrysanthemums.

We have a great deal of inquiry for chrysanthemums that will flower early. So many complain that their chrysanthemums are killed by frost in the garden before they bloom that we have made selection of the very earliest varieties, and offer them here in this set.

*Price*, 10 cents each; 3 for 25 cents. The set of 12 early flowering chrysanthemums for 75 cents.

**Clinton Chalfant.** Bright golden yellow wax-like petals, forming a finely rounded flower of great substance. Makes a fine early variety.

**Day Dawn.** A grand, large, early white, center creamy lemon upon opening, gradually becoming pure white; the petals increase in length from the center; while the bloom is quite double, it is of informal and graceful arrangement.

**Rider Haggard.** The largest chrysanthemum that we have yet seen. Guard petals pink, long and drooping; immense deep rounded disc of deep rose, with amber shadings.

**Golden Trophy.** A grand early yellow; a dwarf grower; foliage very beautiful and quite up to the flower; very large for October, compact, crowded with petals, incurving into a complete golden ball.

*Price*, 15 cents each.

**Sunrise.** A fine, large, bold flower, often seven inches across, with very broad petals, slightly incurved but full to the center; color bright terra cotta, reverse of petals old gold; a grand flower of fine build, with good stout stem and handsome foliage; one of the earliest, and a fine acquisition.

**Nyanza.** A seedling from Geo. W. Childs, possessing the same brilliancy of color. In form and general appearance resembles Robt. McInnes, but larger and not so closely incurved, thus showing less of the golden reverse; stronger in growth than any of its class. *Price*, 15 cents each.

**Mrs. A. J. Drexel.** A very early, large flowering variety, half spherical in form, petals long and arranged like rays; the color is a fine example of crimson lake, quite double, and a fine grower. *Price*, 15 cents each.

**Minerva.** A remarkable variety for its fine dwarf yet sturdy habit, and large, gracefully formed flowers, each beautifully curving petal slightly separated from its neighbor, and all regularly arranged as if done by art. The color is a soft, brilliant yellow.

**Mrs. Henry Robinson.** A magnificent new white in every way, with broad, incurving petals of great substance, gradually forming into a perfect ball of snowy whiteness, with a very glossy finish. It commences to bloom quite early.

**Mrs. E. G. Hill.** Extra early, of large size and form; color a pleasing shade of delicate lavender pink, free in growth, with good stem and foliage; of the easiest possible culture, and quite as fine in every respect as the very best of the midseason varieties.

**Miss Kate Brown.** Early white, coming into bloom the first week in October; fully six inches across; a fine incurved flower with broad petals; first class disbudded, and also beautiful in natural sprays.

**Mrs. O. P. Bassett.** Japanese incurved; sport from Mrs. Robinson; color light clear yellow, identical in form, size, habit and period of blooming with Robinson. *Price*, 15 cents each.
Six Prize Winning Chrysanthemums for 50 Cents.

We take pleasure in offering this superb set of chrysanthemums at so low a price, and hope all our customers will take advantage of it. All the varieties have won either medals or prizes at the different shows, and without taking the price into consideration they are the best six we could possibly select. These plants produced flowers last fall that sold in our city for $2.00 and $3.00 per dozen blooms.

Autumn Glory. There is nothing like it in color, which is a deep reddish salmon upon opening, and gradually changes to a soft shrimp pink when fully finished. The flowers are of the largest size, and take on great depth. This variety has no touch of lavender in its color, but is a decided and new shade that is very beautiful.

Price, 15 cents each.

Black Hawk. The largest and most beautiful dark crimson scarlet yet introduced; looks like crimson velvet; the very shade so much desired in chrysanthemums; flowers of immense size on fine stiff stems.

Price, 15 cents each.

Sunstone. A strong growing, large flowered variety of very pretty coloring. Bright yellow, shading to red at the base of petals; reverse of petals light buff. Very desirable because of its robust constitution and large, brilliant colored flowers.

Price, 15 cents each.

Western King. In the entire chrysanthemum family there is no grander white variety, no matter when it blooms. It is the most popular style, immense incurving, broad, channelled petals of great substance and the purest white; a perfect ball of snow. It is 16 to 18 inches in circumference. We think this variety does not possess a single fault.

Price, 20 cents each.

Pennsylvania. Deep primrose yellow, sport of Philadelphia. Identical with Philadelphia in every respect save its color, which is a great improvement. Stem and foliage perfect, and flower of largest size and most perfect form. This variety may be characterized as immense; a magnificent second early variety.

Price, 20 cents each.

Wm. H. Chadwick. The grandest novelty of the year; an immense, graceful bloom, waxy white, occasionally tinted pink; growth, habit, stem and foliage simply perfect. It cannot be praised too highly.

Price, 15 cents each.

The Famous "OSTRICH PLUME" Chrysanthemums.

They now contain white, pink, yellow and red, making the most novel and handsome chrysanthemums grown.

Yellow Ostrich Plume Chrysanthemum, Golden Plume. The flowers are very large, of a beautiful clear golden yellow, incurved and covered with golden yellow hairs. The plant is vigorous in growth, and the flower is borne upright on a stout stem.

Price, 15 cents each.

The Red and Gold "Ostrich Plume," Mad. F. Cayeux. This variety is the nearest approach to the "red and gold" type of chrysanthemums among the "Ostrich Plume" set. Of the very grandest size. The color is a deep ruby red of beautiful shade, each of its raylike needle shaped petals faced and tipped with old gold, which are carried erect on stiff stems.

Price, 15c each.

The New Bronze Ostrich Plume, Racohls. This beautiful new variety is of a deep reddish bronze, shaded and marked in scarlet. The enormous size, grand form and heavy plumes make this one of the finest flowers of this class. It is a decided advance in color, and adds much to this strange type.

Price, 15 cents each.

One each of the above set of "Ostrich Plume" Chrysanthemums for 50 cents.
Chrysanthemums...

“CREAM OF THE SHOWS.”

Price, 10 cents each, except where noted, 3 for 25 cents, 20 for $1; and where the selection
is left to us we will give 25 for $1.

Positively the Finest and Most Distinct Varieties in Existence.

Andes. Bright reddish terra cotta, or golden bronze; grand exhibition bloom, broad petals, incurving; strong, stiff stems and nice foliage. Color, size, form, habit and stem all first class.

Black Beauty. Color blood red, petals long and curiously curled. A wonderful variety both in color and form. Both odd and beautiful.

Buff Globe. This enormous globe shaped flower is identical with its parent, Good Gracious, in everything save color, which is a pale chrome yellow, shading to buff. A fine variety; try it.

Charles Davis. A terra cotta or old rose, shading to clear yellow at the center.

Creole. Deep claret, reverse garnet; large flower with broad petals.

Cullingfordii. One of the brightest and most distinct of all the dark colored kinds: brilliant crimson, shaded scarlet, flowers of a rich velvety texture.

Defender. A grand new velvety crimson, with flowers of large size and fine form; extra fine stem and foliage. A welcome addition to the red shades, as really good reds are by no means plentiful.

Price, 20 cents each.

Frank Hardy. An ideal white flower of great depth; of the incurved petal Japanese type. A remarkable strong healthy grower. Very highly praised wherever it has been exhibited.

Gold Dust. Pure golden yellow, very plumy and full, finely incurved and good size, improvement on the yellow Ostrich Plumes.

George W. Childs. No chrysanthemum created such a sensation as did this. The flowers are of massive size, reflexed, with broad, stiff petals; color deep, rich, velvety crimson, with no shade of brown or chestnut.

Golden Wedding. The flowers are a great, fluffy mass of clear golden yellow, sunshiny and glistening; sometimes eight or nine inches across and without a blemish.

Good Gracious. The first sight of it usually brings forth an exclamation of admiration. The color is also unique, being a delicate shade of peach pink throughout. The form is remarkable, the petals are incurved and twisted, overlapping each other in irregular fashion, and resembling talons.

Harry May. Very large and double, forming, when well open, a massive sphere; color deep old gold, occasionally veined red; petals very broad.

John Shrimpton. The finest red chrysanthemum extant. Blooms exactly similar but a little larger and the foliage much prettier than George W. Childs.

L. Canning. A most exquisite white, absolutely pure. The flower is quite regular in form, very large and flat, the length of petals graduating to the center.

Lenawee. An incurved Japanese of the purest white, resembling the Queen, but surpassing that popular variety. Very large and double; has a stout stem with seven and one-half inch flowers.

Maud Dean. An extra large flowered variety. Petals broad and incurving, perfectly double and of great substance; color pink, almost rose. A good variety for cut flower purposes.
Monstrosum. This will be a welcome addition to the exhibition tables where blooms of depth as well as breadth are requisite. A Japanese, with tubular petals; first opening flat, assuming a globular form at maturity. Color, magenta pink.

Mrs. Perrin. This variety is, we believe, the nearest approach to the true pink so long desired in chrysanthemums. The flower is of globular form, incurved but loosely built, with a finish as fine as satin. The color is a wonderfully clear, bright pink, quite clear from magenta; the stem and foliage are fine, and we expect it will be very prominent another season.

Mrs. George West. One of the largest varieties in cultivation; broad, heavy petals, deep rose purple.

Mayflower. A large pure white flower of graceful form, the guard petals large and informal; habit dwarf and sturdy with fine foliage well up to the flower.

Mrs. E. M. Bigelow. Large bloom, full and regularly incurred. Color deep reddish crimson; of ideal growth; growing erect, with foliage nearly up to the flower; an extra fine red.

Mrs. A. Carnegie. A fine bold flower, globular in shape, of a beautiful blood red color. The petals are long and curiously curled, and the reverse of each petal is lined with bright yellow, giving it a very novel and pleasing effect. We consider this the best of the "Red and Gold" varieties.

Modesto. The flowers of this variety were the largest raised by us this season, and were truly magnificent in color—the purest golden yellow we have ever seen. Experts pronounce it the finest yellow yet produced, either for exhibition or planting. The flowers are a perfect compact globe of golden yellow, very large, of the heaviest substance, and stiff stems.

Mrs. Jerome Jones. It is almost of globular form, of the finest silky finish, and destined to become a standard sort for cutting. The outer petals a delicate lavender, forming a decided band of color, the inner petals are clear lemon.

Mrs. J. H. White. One of the largest rich crimson varieties, reverse bright gold, large reflex bloom, when fully developed showing only the crimson; dwarf.

Mrs. Craige Lippincott. Very bright yellow; useful in exhibition collections.

Mrs. E. A. Kimball. Peculiarly striking flower; crimson and old gold, but incurred so closely as to show the crimson only on a few of the lower drooping petals.

Niveus. A grand snow white flower with the center petals irregularly incurred, the outer petals reflexed nearly to the stem, giving it an almost globular appearance.

Philadelphia. An enormous globular Japanese variety of exquisite form, with gracefully incurved petals of great width; color white, tipped with pale primrose; stiff stems and nice foliage.

Queen. This grand variety has shown itself, after another year's trial, to be one of the very finest whites to date. The flower excels all in pure whiteness, is extra large, broad and deep; the petals are heavy and thick; a good keeper; leaves broad and thick, stem strong, holding blooms very firm and erect. It has been a prize winner wherever shown.

Shilowa. A brilliant crimson Japanese, with petals convexing and contorting at maturity, showing the upper surface only, of a black velvety lustre, as seen in Prince C. de Rohan Rose.

Silver Cloud. Color creamy white, shading to bright apricot at base of the petals; very large and full; outer petals nicely reflexed; stiff stems. Fine for exhibition. Should be in every collection.

Vivian Morel. An immense flower, with full high center, of a beautiful tender rose color.

Violet Rose. A grand variety for every purpose. Form and habit superb. Color, deep violet rose.

Violetose. Center white, outer petals tinged violet; a deep, well formed flower.

Amateur Collection of Chrysanthemums.

25 FOR $1.00.

Chenille Plant.

(Acalyphia Sanderi.)

This is the most distinct and striking ornamental plant introduced in many years. It is a native of the South Sea Islands, and may well be called a forerunner of the rare and beautiful tropical plants from our new possessions in the Philippines. It is of easy and rapid growth and blooms continuously. The plant is of branching habit, healthy foliage, and the flowers are most remarkable. The flower spikes, which appear in pairs from the axils of the leaves, grow from two to three feet in length. They are of bright crimson color, drooping and mixing among the green foliage with charming effect. It will be extensively used as a pot and window plant everywhere. For bright and curious effect it has no equal. Wherever the plant has been exhibited in this country and in Europe it has attracted universal attention and admiration. It has received silver and gold medals and premium certificates at the flower shows this autumn. Our illustration is a very truthful one, representing the plant as shown by us at the flower show, November, 1898. We offer strong, well rooted plants of our own growing, mostly showing the flower spikes.

**FIRST SIZE—**From 2 1-2 inch pots, 25 cents each.

**EXTRA SIZE—**From 3 1-2 inch pots, 35 cents each.

Acalyphia Macafeana.

A beautiful variegated foliage bedding plant, much richer than the finest coleus. Red and green, blotted and flaked with bronzy crimson.

Price, 10 cents each.

Acalyphia Triumphans.

This is one of the most beautiful foliage-plants we have ever seen. It is a strong, healthy grower and makes a compact plant of splendid dimensions. The foliage is large (about 2x4 inches), very heavy and showy beyond description. The predominant color is red, marbled lighter and darker, streaked and dashed green, yellow, white and other colors, giving a most striking effect to be had with no other plant. It is as attractive as a Croton. We strongly recommend it.

**Fine plants, 10 cents each.**
ASPARAGUS.

Asparagus Sprengeri. A beautiful new variety of this graceful class of plants, especially useful to grow as a pot plant for house decoration or for planting in hanging baskets, where it makes a graceful drooping plant with branches or fronds 4 to 5 feet in length, of a rich shade of green; a useful plant for cutting for decorating, as it retains its freshness for weeks after being cut. It is easily managed, and will grow in almost any position.

Price, 15 cents each; large plants by express, 30 cents.

Asparagus Plumosus Nanus. An excellent plant for window culture, the lace-like texture of its foliage excelling that of Maiden Hair Fern in grace and daintiness. It is fine as a pot plant, and in floral decorations the sprays are almost indispensable.

Price, 15 cents each; large plants by express, 25 cents.

Asparagus Tennissimus. Very fine, filmy foliage. A handsome climbing plant for the window and a very useful pot plant.

Price, 15 cents each.

Aspidistra Lurida.

A beautiful plant with large, lance shaped leaves. An elegant window or conservatory plant of the easiest culture; of strong growth; will succeed in any position; an excellent hall or corridor plant.

Price, 25 and 50 cents each.

Alamanda Hendersonia.

A useful climber for training over trellises or posts in the warm conservatory, producing in clusters tubular shaped flowers 2½ inches across, of a bright golden yellow color.

Price, 20 cents each.

Alyssum.

Little Giant. A great improvement on the old double sweet alyssum, it being of a more dwarf compact habit, with flowers twice as large, and borne erect like candytuft.

Price, 5 cents each; 40 cents per dozen.

Aloysis Citriodora.

Lemon Verbena. The delightful fragrance of its leaves renders it indispensable in making bouquets.

Price. 10 cents each.

Alternantheras.

A genus of ornamental foliage plants of dwarf, compact habit, rarely exceeding 4 to 10 inches in height; very showy and well adapted for baskets, vases, ribbon lines, ornamental groups, etc., contrasting well with almost any color, adapted to a sunny situation. The best plant you can get for edging colors or other fancy leaved beds.

Aurea Nana. It is admirably adapted for ribbon lines, carpet bedding, or massing front lines in foliage beds. It is of compact growth, seldom exceeds 4 inches in height; color of foliage, bright golden yellow.

Alternanthera Parynechoides Major. This is the alternanthera so largely used in all ornamental carpet gardening. It grows only about 6 inches high, and can be kept much shorter by shearing it. The color is as bright when first planted as at any other time, and this it keeps constantly. The color is brightest carmine. It is the brightest leaved plant, and is valuable because its color is so constant and striking.

Price, 5 cents each; 50 cents per dozen; $3 per 100.

ARAUCARIA EXCELSA

(Norfolk Island Pine.)

This beautiful plant is well adapted to house culture and is almost indispensable as a decorative plant. The dark green branches are arranged in symmetrical whorls, producing a very unique and graceful appearance. Must be sent by express; too large to mail.

Price, 8 to 12 inches, 75 cents each.
OUR BOUQUET COLLECTION OF CARNATIONS.
The Bouquet Set
...OF...
Carnation Pinks

TWELVE BEAUTIFUL EVERBLOOMING VARIETIES—THE BEST IN CULTIVATION—FOR $1.00.

(See Colored Plate Illustration, Preceding Page.)

No. 1. 
Buttercup. Of a deep, rich yellow, like Mareschal Niel, with a few streaks of clear carmine, a very near approach to a pure yellow. The flowers are large and double; it is a healthy and robust grower, a persistent bloomer, and does not burst its calyx.

No. 2. 
Eldorado. A splendid, new, free blooming yellow, lightly edged with pink. Flowers medium to large, with strong stem and good calyx. Very free in growth and bloom.

No. 3. 
Flora Hill. The grandest white carnation to date. The flower is of enormous size and full rounded form, wonderfully free in bloom, stems strong enough to support the blooms nicely, and they keep on stiffening as the season advances; a very free healthy grower.

No. 4. 
Mrs. James Dean. The ideal light pink carnation. A continual bloomer with large perfect flowers of a beautiful silvery pink shade. The plant is of strong, robust constitution, and entirely free from disease. Will surely be a favorite variety.

No. 5. 
Armaizundy. The "Pink of Perfection." Probably the most beautiful carnation yet introduced. Flowers are a pure satiny white, and marked and shaded with a rosy pink, good size, perfect form, never bursts. It is the strongest and sweetest scented carnation we know.

No. 6. 
Daybreak. Flowers very large and full, and of heavy texture; color, a charming shade of delicate clear flesh pink, with long stout stems; a free grower and bloomer, and deliciously fragrant; an extra good winter bloomer.

No. 7. 
Wellesley. Dark pink, or perhaps nearer a brilliant red. Very desirable shade. Flowers a good size, very prolific, stiff stems, rather dwarfish in growth, but still of good size. Very bushy habit, promises to become a standard.

No. 8. 
Portia. A favorite everywhere, for it blooms freely and is a desirable shade of bright scarlet. The flowers are of good size and substance, keeping for a long time after being cut. One of our most valuable varieties.

No. 9. 
Anna Webb. (Crimson.) Deep rich glowing crimson; beautifully fringed flowers; one of the best.

No. 10. 
Bon Ton. This is by far the darkest carnation ever seen, and at the same time the most abundant bloomer. Brilliant, dark red, shaded with the richest maroon, fringed petals, nearly every flower being on a long stem. This variety surpasses in richness of color the most perfect Jacqueminot roses.

No. 11. 
Thomas Cartledge. (Carmine.) A pure shade of carmine; flowers large and full in the centre, while the stems are long and erect. Bloom early and is prolific.

No. 12. 
Empress. Bright rich crimson, base of petals fiery scarlet, large, perfectly double flowers, three or more inches in diameter, deeply fringed and decidedly fragrant. Strong, vigorous habit. Hardy, vigorous grower and good bloomer. The largest dark carnation yet introduced.

The "BOUQUET SET" of twelve beautiful carnations, described above and illustrated on preceding page, postpaid by mail for $1.00. Single varieties, 10 cents each. This is the greatest offer ever made in carnations. Note the varieties—the rarest and the best. We urge our patrons to try this collection.

PLEASE ORDER AS THE "BOUQUET SET" OF CARNATIONS.
AGERATUMS.

Old garden favorites, blooming continually throughout the summer months; well adapted for bouquets and cut flower uses; one of the earliest possible culture; a valuable summer bedding plant.

Mexicanum. Flowers light blue, in profusion; a well known standard sort.

Mayflower. Dwarf, compact growth, bearing a profusion of pure white flowers.

Price, 10 cents each.

Bougainvillea Glabra Sanderiana.

Often called "Chinese Paper Plant," on account of the lasting quality of the flowers (or bracts). The color is soft, rosy crimson, and when in full bloom the plant is both beautiful and interesting. Is easily cultivated and may be trained to grow in any position. Price, 25 cents each.

Arondo Donax Variegata.

This scarce and beautiful variety is one of the most stately of silvery variegated reed like plants, and one that can be used either as a single specimen or in groups, or in masses if not planted too closely together, its broad foliage, creamy white and green stripe contrasting well with other foliage plants. It is perfectly hardy, but needs protection from damp in winter, grows ten feet high, is of graceful form and fine habit. It may be increased by division in the spring when it emits roots freely and makes rapid growth; should be in every collection.

Price, 25 cents each.

Begonia...Rex.

They are the handsomest of all begonias, and the most admired by all. Try a set of them. We have five leading and distinct kinds that we will furnish for 15 cents each, or 4 for 50 cents; 10 for $1.00.

If We Please You... TELL OTHERS.
If We Don't... TELL US.
BEGONIAS

Alba Picta. Very ornamental; has long, earshaped, medium sized leaves of the darkest green, with silvery spots.

Argentea Guttata. This variety has the silvery blotches of Alba Picta and the form and beauty of Olbia; purple bronze leaves, oblong in shape with silvery markings; white flowers on the tips of the stems; fine for house culture.

Cupra. A seedling from Metallicum, with beautiful velvety leaves of dark green. A strong, rapid grower, which is bound to become popular.

Duchartrei. Foliage lanceolate, sharply pointed, dark bronze green on upper surface, reddish purple on underside; flower large, in good sized panicles, pure white, nicely decorated with downy red hairs. A charming variety for winter blooming.

Gloire de Lucerne. A beautiful variety that is evidently a cross between Sanguinea and Rubra, both of which it resembles in foliage, while the bloom is the most beautiful rosy vermilion. The leaves are of the most beautiful form, broad and deeply lobed, bronze green above and purple below.

M. de Lesseps. In the style of Argentea Guttata, but with much larger leaves, beautifully spotted with silver. A very strong growing sort that will do well and give satisfaction.

Nitida Rosa. Glossy leaves; medium size, bloom extremely beautiful; large panicles; soft rose color.

Purity. The most prolific bloomer of all the white begonias, being a mass of bloom both summer and winter. It is an excellent plant for pot culture, making a neat compact plant that is nearly as broad as high and completely covered with glistening pearly white flowers. As a bedding plant it has few equals; if given a light rich soil, it is a mass of bloom the entire summer.

Price, 15 cents each.

President Carnot. A remarkably strong growing variety, of stiff, upright habit; foliage very large, somewhat in style of B. Rubra, more than twice as large; flowers beautiful coral red, in large pendant panicles, less similar to Rubra, but very much larger.

Rubra. This begonia is a favorite with everyone, its dark, glossy green leaves, combined with its free flowering habit, making it one of the best plants for house or conservatory decoration. The flowers are a rich coral red, in large pendant panicles. One of the best.

Rubra Rosa. A strong, upright grower, with light rose colored flowers.

Sandersii. An old and popular variety, with bright, glossy green foliage and brilliant scarlet flowers; stands the sun well; splendid center plant for baskets or vases.

Sanguinea. A showy variety, with very large leaves; upper side of which is a rich olive; underside crimson, and of a peculiar leather-like substance; dainty flowers, light rose to white.

Thurstonii. A distinct and pretty shrubbery variety, with thick heavy foliage, which is of a rich metallic green above and bright red underneath; the flowers are of a fine pink, rising well above the foliage.

Tomentosa. White tipped, rose flowers, tall growing.

Washingtoniana Rosa. A vigorous grower; large leaves; elegant trusses; rose colored flowers.

Wettsteinii. This fine begonia is in the direct line of Rubra, so well and favorably known. The leaf is ornamental, being peculiarly indented, and a lovely shaded coloring.

Zebrina. Leaves bronzed green, with dark stripes and blotches, underside deep crimson; flower lighter.
NEW BEGONIA,

FLAMBEAU.

A new everblooming begonia of French origin, introduced by Mons. Lemoine, who has given us so many of the best varieties of the Semperflorens type. The plant is a dwarf, compact grower, with handsome glossy deep green foliage slightly ruffled and toothed on edge. Exceedingly free flowering, commencing to bloom when very small and flowers continually; color deep rosy pink, changing to delicate light pink. A valuable bedding variety, flowering fully as free when planted in the open ground as when grown in pots in the house.

Price, 20 cents each.

NEW BEGONIA,

OTTO HACKER.

A remarkably strong grower, of fine branching habit, making large, showy plants 2½ to 3 feet high in a single season; leaves large, round, glossy green, slightly serrated; flowers large, in large clusters on stiff stems, carrying them well above the foliage; color a beautiful bright coral red. A beautiful pot plant for the window or conservatory in winter, and for the porch in summer.

Price, 15 cents each.

Caladium

Esculentum

(EGularite's Ear)

One of the most effective plants in cultivation for the flower border, or for planting out upon the lawn. It will grow in any good garden soil, and is of the easiest culture; but to obtain the best results it should be planted in rich compost and plentifully supplied with water.

Price, large strong bulbs, 15 cents each: 4 for 50 cents: 10 for $1.

A POINTER. A beautiful "tropical" effect can be secured by planting cannas in the center of a bed, with a row of Caladium Esculentum outside. A fair sized bed will require about six cannas (light and dark foliage) and seven Caladiums. Give them rich soil and occasional drenching. The 13 plants for $1.00; 26 plants, sufficient for a large bed, only $1.75.
COLEUS

FINE NOVELTIES OF RECENT INTRODUCTION.

WHOEVER has visited our large city parks will never forget the beautiful and wonderful designs and effects produced by the skilful display of coleus, looking like oriental rugs spread invitingly out on the green sward. Truly the coleus is the gardener's paint box, from which may be produced, by his artistic touch, the most beautiful pictures imaginable. In this field there is full opportunity for an interesting exercise of the taste of all flower lovers. Beds of any and every shape are desirable, which may sometimes be simply filled with plants of one dark variety edged with golden crown, for instance, which will grow more beautiful as the season advances. Should you desire something more fanciful, sketch out your design and then follow it in your bed, which may be readily done, using as many varieties of coleus as your design may suggest. The plants in any event should be set about 8 inches apart, to get immediate and lasting effect; plants are all first class varieties.

PRICE, 5 CENTS EACH; 30 FOR $1.00; $2.50 PER 100.

Crotons.

These ornamental plants are natives of the South Sea Islands; they are among the most beautiful of variegated plants, the leaves being blotched with yellow and red in various ways, which renders them most attractive and valuable for decorative purposes. They are of the easiest culture, succeeding in any warm greenhouse.

Price, 15 cents each.

Cestrum Diurnum.
(Day Blooming Jessamine.)

The day blooming species. A handsome, quick growing evergreen shrub, producing quantities of sweet scented white flowers, valuable for cut flower work, and somewhat resembling candytuft. A fine pot plant of the easiest culture.

Price, 10 cents each.

Cestrum Parqui.
(Night Blooming Jessamine.)

This is the famous Night Blooming Jessamine, producing beautiful white flowers in clusters, and the greatest profusion, overpoweringly sweet at night. It is said to be the most valuable of all perfume plants. It is a lovely pot plant and is of easiest culture, thriving to perfection in good loam and sand.

Price, 10 cents each.
Eulalia Japonica Zebrina.

This is one of the most beautiful and distinct hardy plants in cultivation. Unlike all other variegated plants, this has its striping or margin across the leaf instead of longitudinally. It grows from 5 to 7 feet in height. It is perfectly hardy, even in the middle Northern States. For specimen plants on the lawn, or for centers of large beds, or for large masses in mixed borders, it always looks well.

Price, 15 cents each.

Clerodendron Balfouri.

No other climber in cultivation displays such colors of scarlet and creamy white—a very effective combination—to white. It is a profuse bloomer, young plants a foot high often bearing several clusters. Being of rapid growth it soon forms strong specimens, fit for any exhibition, and which, if well grown, will be entirely covered with bloom. Can be grown indoors or out, and will surely please you.

Price, 15 cents each.

Calla Lily.

(Lily of the Nile.)

Of this old and well known favorite we have to offer a fine stock of blooming plants. It requires an abundance of water during the growing season, and should have a period of rest during the latter part of the summer by withholding the water and turning the pots on their sides in some shady place, a month or six weeks; after which report.

Price, 10 and 25 cents each.

Umbrella Plant.

Cyperus Alternifolius. A splendid plant, throwing up stems two or three feet high, surmounted at the top with a whorl of leaves, diverging horizontally, giving it a novel appearance. Fine for center of vases or aquariums.

Price, 15 and 25 cents each.

New Giant White Paris Daisy.

A new, large flowering, semi-double variety of the true "Marguerite" of the Paris markets; large, pure white flowers, with a double row of petals surrounding the golden yellow disk. It is a vast improvement, in size of flower, on the old "Marguerite," being twice as large and more numerous petals, lasting longer. It makes a grand display in a pot during the winter months, and will eventually supersede the old form completely.

Price, 10 cents each.

Caladium.

(Fancy Leaved.)

These plants are especially valuable for decorating conservatories, window boxes and as specimen plants. Most of the varieties succeed finely in partly shaded, warm outdoor borders, in light, rich soil, if planted early in summer. They are never as large as Esculentum, but the brilliant cardinal red, cream, pink and various shades of green that are displayed in the veinsings and blotches of the leaves cannot be obtained in any other class of plants. For arranging floral baskets or table decorations, the leaves are quite as handsome as any flower.

Price, 15 cents each; $1 per dozen.

Our Bedding Collection of Geraniums....

Many of our patrons do not care for names of varieties, but want just as many geraniums as they can get for the money. To all such we would recommend our Bedding Collection, which will contain twenty choice varieties suitable for bedding, but not labeled unless otherwise ordered. Each collection will contain an equal quantity of both double and single varieties.

Price, $1 for 20 Choice Varieties; 10 Varieties for 50 Cents.
Cape Jessamine.

(Gardenia Florida.)

This splendid plant is a great favorite with all who know its true worth. The blooms are pure white and measure 2 1/2 inches across and are delightfully fragrant. The flowers are extremely fashionable, and for this reason, together with its ease of culture, we feel sure of a lively demand for it. The frequent requests received for it have led us to propagate a large number of strong, well rooted, blooming plants.

Price, 15 cents each.

New Jasmine,

Maid of Orleans. A very attractive new sort, with good sized double flowers, blooming profusely all summer, shining pale green foliage. We predict for it a rapid sale, as it is so much easier to handle than other Cape Jessamines, and, on the whole, more desirable.

Price, nice plants, 10 cents each.

Confederate Jasmine. This makes an elegant hard wooded climber, or can be trained in bush form. It bears large bunches of pure white flowers, with the most delicious Jasmine perfume. It is known in the South, where it is hardy, as the Confederate Jasmine. A great plant for house culture. Also known as Malayan Jasmine. It will delight all.

Price, 15 cents each.

Grand Duke. This jasmine is very easily grown, even small plants bear a profusion of very double creamy white flowers, having a delicious perfume. It is a magnificent plant, and will become one of the most valuable and popular pot plants when it becomes better known. It can be stored in a dry cellar in winter.

Price, 10 cents each.

Cuphea.

(Cuphea llavea.)

The flowers are tubular in shape, 1 1/2 to 2 inches long, and have two bright scarlet wings at the end of each flower; the tip of the flower is bright purple; the stamens are pure white; the body of the flower is pea green and is covered with fine crimson hairs like a moss rose. The plants are always in bloom when given proper care. It makes an elegant appearance when potted or in the open ground.

Price, 10 cents each.
Glorious, Everblooming CANNAS.  
NEW AND RARE.  
The Most Marvelous Productions of Two Continents.

Burbank. A new giant Canna raised by Mr. L. Burbank, of Sonoma, California, a very successful hybridizer of fruits and flowers. The flowers are of immense size, spreading fully seven inches, and the form is really semi-double. Toward the inner part the lower petals show fine crimson spots. All the rest of the flower is of a most beautiful, rich canary yellow. The plant is a very strong grower, five to six feet high, with rich green leaves, with a texture not unlike the leaves of the rubber plant. This Canna would take a prominent place as a decorative plant, even if its grand trusses of everblooming flowers were lacking. As a specimen decorative as well as a flowering plant for the greenhouse or private conservatory, it is the finest novelty in recent years. It makes a brilliant and constant show, flowers quickly and freely. 

Price, fine plants, 15 cents each.

Duke of Marlborough. This is the darkest colored canna yet introduced. Dark, rich velvety maroon. Finely shaped flowers in large, well balanced trusses. A handsome, vigorous grower and quick constant bloomer. Undoubtedly the darkest and richest colored canna to date.

Price, 20 cents each.

Dwarf Florence Vaughan. (Comtesse de Sartoux Thorene.) Dwarf habit, never exceeding three feet, with broad, massive dark green leaves. An early and continuous bloomer, throwing its graceful trusses of large, bold flowers just the proper distance above the foliage. Color rich golden yellow, thickly dotted with bright red. 

Price, 30 cents each; 4 for $1.

Italia. Another giant flowering variety from the same source as Austria, and by some would be considered the more showy of the two. The plant is of the same strong habit of growth, with large deep green foliage. The flowers, while not quite as large, are even more gorgeous on account of their glowing colors. The three upper petals are golden yellow, with a large blotch of orange scarlet in center of each, the center and lower petals scarlet with a narrow edge of golden yellow.

Price, fine plants, 15 cents each.

Martha Washington. This is undoubtedly the most superb pink variety yet introduced. The flowers are very large and frequently have five broad petals; the trusses are immense, and the color pure bright rose; very beautiful and attractive, a vigorous grower and a most constant and abundant bloomer. Height about three feet.

Price, 30 cents each.

The "Giltedged" Canna, Souv. d'Antoine Crozy. This is a marvelously brilliant canna; intense scarlet, rich and dazzling, bordered with a broad, rich golden yellow edge, and does not fade or scorch in the hot and dry weather. This invaluable quality it shares with Queen Charlotte, the other grand "Giltedged" variety. Of vigorous habit, three feet high.

Price, 15 cents each.

SPECIAL NOTICE.

Our verbena and other special offers of twenty plants for $1 are strong, vigorous plants, and should not be compared with the tender, young things offered by some firms.

SPECIAL OFFER.—This Set of Six Novelties, Comprising the Very Finest of all the Latest Varieties, for Only $1.00.
Alphonse Bouvier. What "Mad. Crozy" is among the scarlet varieties, we consider Alphonse Bouvier among the crimson, and were we to choose one of the two, it would be difficult for us to show a preference. In color it is the most intensely brilliant crimson yet introduced, and is undoubtedly the best bedding variety for planting in masses now in cultivation; on the first opening the flowers are of an intensely brilliant crimson, approaching scarlet, changing to a deep crimson as they fully develop. The foliage is of a rich green; the plant is of strong, robust habit. Price, 15 cents each.

Black Beauty. Four to five feet. The flowers are insignificant but its foliage is superb, being a deep, bronzy wine red, almost black. And when foliage effect alone is wanted, or when planted to contrast with the large flowered varieties the effect is grand. Price, 35 cents each; 3 for $1.

Charles Henderson. This is a comparatively new canna, and is acknowledged as the standard crimson; a very compact grower, elegant dark green foliage on purple stems; grows about 3 feet. The flower spikes are of the largest size, the petals are very broad and beautifully recurved. The color is a deep rich crimson with a yellow flame at the throat. Price, 15 cents each.

Egandale. The finest, freest and earliest of all the dark leaved varieties; flower very much the shade of scarlet found in "Chas. Henderson," and much the same shape; has no superior. Price, 15 cents each.

Florence Vaughan. This is undoubtedly the finest yellow spotted variety yet sent out (debar-ring the new varieties of this season). In color it is of a bright, rich, golden yellow, spotted with bright red; the flowers are of the largest size, of great substance and of perfect form. Price, 15 cents each.

Philadelphia. Four feet. Green foliage. This is undoubtedly one of the best for massing. It makes a splendid bed planted alone as a solid color. A handsome, graceful grower. Both the trusses of bloom and the individual flowers are of the largest size. The petals are broad and shape-ly; the color is the clearest shade of glowing crimson scarlet ever seen in a flower. Price, 20 cents each; 6 for $1.

The Queen of Gilded Canaas,
Queen Charlotte. Dwarf and sturdy; flowers large, bright orange scarlet, irregularly banded with a wide margin of golden yellow; one of the freest blooming cannaas, and from the time it becomes established until severe frost it is never without flowers. The trusses are borne aloft above the foliage and look like perfect bouquets. This is one of our favorite varieties. Price, 15 cents each.

Sunset. A charming new variety. Fine creamy yellow, delicately penciled with lovely sunset tints; orange, lemon and fawn; medium size flowers in large well filled trusses. Price, 20 cents each.

Triumph. A handsome shade of deep rich crimson. Large flowers in fine, well built trusses, borne erect on strong stems. A good vigorous grower and constant bloomer. Price, 20 cents each.

Yellow Crozy. Height 4 feet. Green foliage. This novelty, proven by us for four years, is a clear, pure canary yellow with no red markings except a few faint red spots on the smallest lower petal. The effect produced by a bed of it is a solid mass of pure yellow. Price, 25 cents each; 5 for $1.

A MOST REMARKABLE OFFER.
SIX STRONG, GROWING PLANTS, ONLY 50 CENTS.

FOR ONLY 50 CENTS we will send SIX CHOICE CANNAS, our selection, from the cream of all the new varieties; a magnificent collection of colors that will surely please you with their luxuriant growth of foliage and bloom.
Ficus Elastica.

(Indion Rubber Plant.)

Very large, smooth, leathery leaves, evergreen foliage. Generally esteemed one of the finest house plants grown, the plant attaining a large size and tree shape. Each new leaf is enclosed in a long, coral red envelope, looking like a great red flower bud. Price, 25 cents each.

Clematis Henriii.

This variety is a much stronger grower than most of the other varieties, and is entirely hardy; excellent for cemeteries or wherever a hardy climber is desired; creamy white, large and fine.

Price, 60 cents each; 2 for $1.

Clematis Jackmanii.

The best known and most valued variety of this popular family. A perfect mass of bloom when in full flower; color, dark, rich, royal purple.

Price, 60 cents each; 2 for $1.

HIBISCUS.

(Chinese.)

Large growing tropical shrubs, with large glossy, dark green foliage, blooming freely in our hottest sun, producing their enormous bright colored flowers in great numbers during the entire summer. Succeeds admirably bedded out during the summer, producing a very tropical effect, the blooms averaging 5 or 6 inches in diameter, and are gorgeously colored. The plants can be wintered over in a warm cellar or pit, and again bedded out in summer. We have reduced the price, bringing them within the reach of all.

Price, first size, 10 cents; second size, 25 cents.

Brilliantissima. The largest flowered of all the single varieties. Color, a brilliant crimson scarlet, flushed with orange, the base of petal stained deep crimson; an extra fine variety.

Grandiflora. Rich, glossy foliage, blooming profusely throughout the summer, literally covering the plant with scarlet crimson flowers.

Lutea. Double; yellow, with maroon center; very fine; free flowering; best of this color.

Lambertii. Flowers large, of deep crimson color; very fine.

Single Rose. Of a rose color.

Sub Violacea. Flowers enormous, semidouble, clear carmine, tinted with violet. Probably the largest flower in the hibiscus (Chinensis) family. An unusual free bloomer.
SIX... SUPERB FUCHSIAS.

Charmer. An excellent, new, large flowered variety, with broad, open flowers; corolla white tinged salmon, sepal clear red. A unique and beautiful flower, produced freely on shapely, rapid growing plants.

Price, 10 cents each.

Elm City. Sepals rich crimson; corolla deep purple, double; very free flowering.

Price, 10 cents each.

Madam Bruant. This is a novel and distinct fuchsia, entirely different in color from any other variety. The flower is very large and double. A fine large rounded corolla with strongly recurved sepal. The corolla is a delicate heliotrope color, suffused with rose slightly marked and veined with Carmine; sepals deep coral red.

Price, 15 cents each.

Fuchsia Phenomenal.

The largest fuchsia we have yet seen—larger than Champion of the World. The tube and sepals are bright coral red, beautifully formed. The corolla, nearly two and a half inches across, is of the very richest violet shade. The habit is remarkably free and it blooms more freely than any large variety we have seen.

Price, 15 cents each.

The Fine Double White Fuchsia,

Rosains Patri. A variety unsurpassed among all the fuchsias with white corolla. In fact, nearly perfection as to free growing and habit; strong and bushy, beginning to bloom quite early in the spring and continuing very late. Tube and sepals are brilliant; deep scarlet, thick and leathery in texture; corolla is very large, double and pure white.

Price, 15 cents each.

Best Single Fuchsia for General Cultivation,

The Black Prince. A misnomer so far as color is concerned, being of a bright waxy carmine, tube and petals large and broad with pale green tips; large, open, pale pink corolla, a wonderfully symmetrical habit and the best all round fuchsia we know of.

Price, 10 cents each.

If we please you, tell others; if we don’t, tell us.
Hydrangeas.

Hortensis. A well known favorite old plant, producing large heads of pink flowers in great profusion. It thrives best in a shaded situation, with a plentiful supply of water.

Price, small plants, 15 cents each.

Thomas Hogg. This is the finest of all hydrangeas. The flowers are produced in immense trusses of the purest white, of very fine texture, and continue in flower for a great length of time. Quite hardy in open ground.

Price, small plants, 15 cents each.

New Hydrangea, Red Branched. A valuable hydrangea, with dark red branches that brighten to a clear crimson color as they near the flower trusses. The plant is of robust habit, and produces freely immense heads of deep, rose colored flowers. A novelty of sterling merit that is sure to become very popular. This is by all odds the prettiest hydrangea. Price, small plants, 20c each.

Rudbeckia Laciniata, Fl. P1. (Golden Glow.)

A hardy perennial plant growing eight feet high, branching freely and bearing by the hundreds, on long, graceful stems, exquisite double blossoms of the brightest golden color, and as large as cactus dahlias. Mr. Wm. Falconer says of it: "When I saw the double flowering form of Rudbeckia Laciniata in bloom last year, I was amazed, for notwithstanding my long and intimate acquaintance with plants I had never before seen a double flowered Rudbeckia, and I was delighted with the fullness and gorgeousness of the blossoms and their clear, bright yellow color."

Price, 15 cents each.

Maiden Hair Fern, Adiantum Cuneatum. The best known variety of adiantum. Its graceful, lace-like foliage makes it indispensable for flower designs or anything where small ferns are used. Price, 25c each.

Boston Fern. (Nephrolepis Bostoniensis.)

One of the most useful and ornamental of the "Sword Ferns." It is now grown by the thousand for the market in all the large cities, and is steadily increasing in popularity. In well grown specimens the fronds attain a length of 6 or 7 feet, like plumes, arching over in every direction in a most graceful manner. This beautiful fern is excellent for outside planting in shady borders. It is a very fine plant for hanging pots or baskets on the piazza in summer and conservatory or window in winter. (See cut.)

Price, 15 cents each; larger, 25 cents.

Compact Sword Fern. (Nephrolepis Cordata Compacta.)

A fitting companion for the above; dwarfer and more erect in growth, a much darker shade of green, and very gracefully arched. For decoration in front of taller plants it is admirable. As a house plant it is very desirable.

Price, 15 cents each; larger, 30 cents.

Erect Sword Fern, Nephrolepis Exaltata. In well grown specimens the fronds attain a length of 6 to 7 feet, but only 1 to 3 inches wide, and like plumes, arching over in every direction.

Price, 15 cents each; larger, 25 cents.
BRILLIANT FLOWERING GLADIOLAS.
ALL COLORS MIXED.
Price: Six for 50 Cents; 40 Cents per Dozen; 40 for $1.00.

The gladiolus is the most beautiful of the summer or tender bulbs, with tall spikes of flowers some two feet or more in height, often several from the same bulb. The flowers are of almost every desirable color—brilliant scarlet, crimson, creamy white, striped, blotched and spotted in the most curious manner. It is a good way to plant at two or three different times, ten days or two weeks apart. This will give a succession of blooms from July to November. They cannot be too highly praised, and customers can depend on getting the greatest amount of beauty for the least money; good, large bulbs, guaranteed to flower.

THE FINEST
Heliotropes
HIGHLY PERFUMED.
VERY BEAUTIFUL.

Price, 10 cents each.

Fleur D'Etc. This is one of the most valuable additions to the list of heliotropes in years. Plant of robust, upright growth and free blooming, immense trusses, pure white, deliciously fragrant.

Madame Bruant. The trusses of this grand variety are enormous, frequently measuring over six inches. Color, a deep blue, and fragrance exquisite. Its lasting quality when cut is remarkable, being far ahead of the other sorts in this respect.

Piecicola. Rosy violet, indeed almost a red, with a distinct white center, showing upright growth, producing immense heads of flowers well above the foliage; flowers do not have that drooping appearance that is so much against some of the other varieties.

Purple and Gold. Foliage yellow with purple flowers, making a striking contrast with the leaves; flower fragrant.

Queen of the Violets. Color of the deepest violet purple, with large, almost white eyes, and very fragrant.

HARDY SCOTCH, OR SWEET MAY PINKS.
These are the Pinks of Our Mothers' Gardens.

They are dwarfer than the carnation, growing about one foot in height, the colors being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground. The flowers are perfectly double, clove scented, and the plants will stand out of doors year after year, being entirely hardy. They make a very nice border for beds or other flowers, or for cemetery planting, making a large tuft of bronzy green foliage a foot or more in diameter, from which the flower stalks are thrown up in great profusion. See the following list, and look at the price. Plants in perfect condition.

Price, 5 cents each; 50 cents per dozen; $3 per 100.

Anne Boleyn. Dark maroon in color, shading light crimson.

Earle of Carlisle. Various shades maroon and rose, with white.

Her Majesty. We have much pleasure in drawing attention to this charming novelty, which is unquestionably one of the finest of this century, and one that will hold its own as long as pinks are cultivated. It is far ahead of anything yet seen, and all the old white varieties will sink into insignificance by the side of this great beauty.

Laura Wilmer. A very beautiful new, with fringed edges.
Manettia Bicolor.

It is both a rapid and beautiful climber. The flowers are from an inch to an inch and half in length, of a most intense bright scarlet, shading into flame, tipped with the deepest golden yellow, and covered with a thick scarlet moss. Read the above over again and see if you can think of anything half so bright and pretty. The brilliancy of the flower is greatly increased by the waxy-green leaves, and the blossoms remain on the plants for weeks before falling. Has our highest commendation. Don't confound this variety with the old Manettia, as it is far superior to the old variety. Send to us and get the genuine. We can usually send them in bloom.

Price, fine plants, 10 cents each.

Evening Glory or Moonflower.

As a climber of rapid growth, to cover arbors, verandas, old decayed trees or walls, it has no superior. Its flowers are pure white, 3 inches in diameter, moonlike, opening at night or on dull days, with a rich jessamine-like fragrance. Blooms from July until frost, in the most lavish profusion.

Price, 10 cents each; 2 for 25 cents.

The Blue Moonflower,

Learii. This beautiful ipomea, known as Heavenly Blue, can be grown as successfully as the common moonflower, and will completely cover in one season a fence or outbuilding with great masses of its "Heavenly Blue" flowers. The flowers are very large, some measuring 4 inches in diameter. This will make a grand addition to our list of climbers as flowers of this color are by no means plentiful. Good strong plants, 10 cents each.

Impatiens "Sultani."

This is one of the most distinct and beautiful plants, either for pot plant in winter or for summer bedding. It is always in bloom; actually covered with its rosy pink blossoms.

Price, 15 cents each; 2 for 25 cents.

Otaheite Orange.

A grand pot plant, of great beauty and novelty. It is a dwarf orange, which grows, blooms and fruits freely in pots, even when only a foot or two high. The fruit is about one-half the size of ordinary oranges, and very sweet and delicious. The blossoms are produced in great abundance, delicate and beautiful in color, and rich in delicious perfume. As a pot plant this lovely dwarf orange is one of the most novel and beautiful that can be grown. It blooms most freely during winter, though it is likely to bloom at any and all times a year. With one or two pots of it anyone can raise an abundance of the far famed, delicate and fragrant orange blossoms.

Price, 25 cents each; 3 for 60 cents.

Pandanus Utilis.

(Screwpine.)

One of the most noble, beautiful and useful decorative plants that can be grown. For majesty of form and gracefully arranged foliage it is almost without an equal, while its vigorous constitution enables it to stand more neglect, without serious injury, than almost any other plant we know of. Whether in the window, garden, the center of a vase or hanging basket, or among the piazza plants in summer, it fills a place for which it seems especially adapted. The sharply serrated edges of the leaves are bright red and the body of the leaf green, glistening in the sunlight and rendering it unusually attractive. A plant which will delight everybody.

Price, fine plants, 25 cents each.

A CORNER IN VIOLETS.

20 Fine Violet Plants, of Best New Varieties, for only $1.00. We will send 20 strong plants of these beautiful new violets, Lady Hume Campbell, the lovely favorite Marie Louise, Swainley White, the bust of all double white violets, and the new single violet California, 20 plants in all, for $1; an offer never before heard of, and not soon to be equalled. Send in your order at once before plants are gone. We want all our customers to plant violets this year.
NEW VIOLETS.

SPECIAL OFFER!

One Each of the Below Four Beautiful Violets, Only 30 Cents.

Lady Hume Campbell. The choicest of all the new double violets. The flowers are of a beautiful azure blue, and delicately pretty in form, of rare fragrance. Price, 10 cents each.

Marie Louise. The best purple violet in cultivation, and a lovely companion to Swanley White. The flowers are deep bluish purple, sweet scented, and very double. Price, 10 cents each.

New Single Violet, California. This beautiful violet has created a decided sensation. It was raised in California, where it was cultivated by the hundreds of acres as cut flowers. Buyers prefer it to all others. It is entirely hardy and of the richest dark blue and very fragrant. Price, 10 cents each.

Swanley White. Of all the white violets this is the best, either for pot culture in the house or bedding out. It is not an uncommon sight to see as many as fifty large flowers open at once. Price, 10 cents each.

Pansy Geraniums or Pelargoniums.

Madame Thibaut. This grand double pink variety is one of the finest novelties of the year. The flower is of the largest size, well doubled, beautifully ruffled along the edges of the petals, and of a deep pink color; blotched in upper petals; very dwarf and free. Price, 15 cents each.

Victor. This variety is grown by the tens of thousands for the New York market, and finds a ready sale. It is a bright cherry pink, white at the base of the petals. The two upper petals are crimson maroon. Price, 15 cents each.

Madame Thibaut.
PETUNIAS.

The double petunia is one of the finest bedding plants for massing, mixed borders or vases. The brilliancy and variety of its colors, combined with the duration of its blooming period, render it invaluable for garden decoration.

Price, 10 cents each; 15 for $1.

SALVIAS.

These are rich and abundant flowering plants of the easiest possible culture, blooming incessantly from midsummer until killed by frost in autumn.

New Dwarf Scarlet Salvia, Kobold. The grandest addition to our list of bedding plants introduced in years. It forms a compact bush completely covered with rich scarlet flowers, which are of heavier substance than the older sort, and remain longer on the plants. The foliage is as large as the old sort, and is so thick on the plants that it covers the ground, forming a mound of vivid green surrounded by blazing red flowers. As a border plant or vase plant it will be indispensable. Price, 10 cents each.

Mrs. Stevens. A robust growing, free flowering variety; color, darkest shade of crimson. Price, 10 cents each.

New Apple Scented Salvia. This plant will be highly appreciated when known, as it possesses the same strong apple scent as the well known apple geraniums; is of free growth and produces numerous rich crimson flowers. Price, 10 cents each.

Le President. Very dwarf, and the earliest of all the scarlet salvias; color velvety scarlet, very bright; growth compact, a mass of color. Price, 10 cents each.

Vermont. Golden leaved, with flowers like President. Price, 10 cents each.

Parrott’s Feather. (Myriophyllum Proserpinacoides.)

An acquatic hanging plant is a novelty indeed, and we have it to perfection in this dainty little jewel. Its long, trailing stems are clothed with whorls of the most exquisite foliage as finely cut as the leaves of the cypress vine, and much more delicate. Planted in a water tight hanging basket, so water can be kept standing on the surface, it will trail finely.

Price, 10 cents each.

LARGE GERANIUMS. To meet the demand for large geraniums we have grown a fine stock, including all the best varieties, in 4 inch pots. These plants will be eight to ten inches high, well branched and set with buds and flowers. Too large to mail. Can only be sent by express, purchaser to pay charges.

Price, 15 cents each; 8 for $1.00.
...Lantanas...

Beautiful Weeping Lantana.

This plant is of very rapid growth, and graceful drooping habit, with lovely dark green foliage, producing a cluster of flowers at each leaf. The flowers are a most delicate, clear, brilliant rosy lilac color; entirely distinct from any other flower we have ever seen. Indeed, we never grew a plant that attracted so much attention and gives such general satisfaction. Price, 10c each; 3 for 25c.

We have few bedding plants that bloom more continuously or afford a greater variety of color than the lantana. Grown in pots or tubs, they make splendid specimen plants for porch or lawn, and can be kept in a light cellar during the winter.

Price, 10 cents each; 3 for 25 cents.

Ariel. Semi-dwarf; very compact; very free in blooming; umbel and floret of fine size; color reddish orange with yellow center.

A. Claveau. Very dwarf, and of bushy, spreading habit, covered with flowers of silvery rose with center of soft yellow; a beautiful contrast.

Aurora. A beautiful, large flowered variety, with light and dark shades of pink, with small yellow center.

Ciceron. A dwarf, beautiful bedder; extremely free in flower; color, bright gold, passing to coppery orange. Fine for edging.

Corbeille d’Argent. Very dwarf, a free grower and an abundant bloomer; pure white. A gem among white bedders.

Faniori. The finest pure white yet introduced; florets large, forming large spikes of bloom.

Francine. Quite dwarf; flowers large; rosy lilac.

Jacques Minot. Plant vigorous but compact in growth; flower at first opening is deep orange red, changing to deep vivid crimson; very fine, and brightest lantana we have ever grown.

Seraphine. Dwarf; red and yellow.

...VERBENAS...

No garden is complete without a bed or border of this most popular flowering plant, giving as it does a wide range of color and blooming profusely from spring till frost. The “Mammoth” sorts give great satisfaction, and we sell them at the same price as the older varieties, but some of these are too good to leave out. We offer a choice collection of the best older and “New Mammoth” sorts in white, crimson, purple, variegated, striped and variegated in great variety of color of the finest sorts. Splendid plants.

Price, 12 for 50 cents; 30 for $1.

Beauty of Oxford. Large pink, well known favorite.
Black Hawk. Very dark maroon.

Bridesmaid. Pale pink; very large white eye.
Calceo. A striped variety, distinctly striped white and scarlet.

Oriole. Variegated lavender and white with eye.

Crimson King. Crimson; a very good bedder.

Daisy Dale. Carmine.

Dr. Daggett. A large pink variety; sometimes bearing flowers of different colors on the same plant.

Flamingo. Bright scarlet and excellent variety.

Monstrosum. Very large red, large white eye, one of the best.

Snowbank. Large white and very fragrant.

Violet Queen. Violet purple, very fine.
The Blue Solanum.
(Solanum Azereum.)

Certainly one of the finest plants lately introduced. Everyone is well acquainted with Solanum Jasminoides, and its merits are greatly appreciated. In "The Blue Solanum" we have a far superior plant in every respect. It is of robust growth, soon making fine specimens that will climb over and cover a porch with the most handsome cut foliage. In mild localities it is covered during the late summer months with hundreds of clusters of large, lavender blue, wisteria-like flowers, brightly set off with golden stamens, each cluster measuring 15 inches in circumference, and often attaining a length of 12 inches. The flowers are succeeded by bright scarlet berries, remaining perfect for a long time. It is the most beautiful flowering vine that we have seen. A brilliant future stands before it, especially as a greenhouse or conservatory plant. Price, 15 cents each.

Tradescantia.

Tradescantia (called Wandering Jew) have beautifully marked foliage, and are fine for hanging baskets and vases, or for house culture, as they will endure most any hardship if liberally supplied with water. Price, 5 cents each.

Tradescantia Multicolor.

Nearly every one is acquainted with the old Zebrina. The one now offered is most beautifully variegated purple, scarlet and white. Price, 10 cents each.

Plumbago Capensis.
(Sky Blue.)

No plant that we know of will be as much appreciated after a few months' trial as this. Undoubtedly the most prolific bloomer that can be had. As soon as one bunch fades a dozen are ready to take its place. Neither is there another plant known bearing flowers of such peculiar blue. Grown in a large pot or tub, it will soon form a large mass, which will be constantly in bloom if pinched back; and if desired as a climber for porches or trellises, it only needs to be left alone. We can recommend it very highly for every purpose where flowers are expected.

Price, 10 cents each.

Plumbago Alba.

A beautiful new variety of sterling merit, the exact counterpart of "Plumbago Capensis," except in color, which in this beautiful novelty is a creamy white. This is one of the leading new plants, and should not be confounded with the old white. It is one of the most satisfactory and attractive bedding plants out, which will be heralded by all flower lovers.

Price, fine plants, 10 cents each.

New Pink Plumbago.

Sanguinea. These plumbagoes are very desirable plants for bedding or house culture, and are admired by all for their elegant trusses of bloom and the delicate colors of their flowers. The deep blue and white varieties are well known favorites, but with the new variety, Sanguinea, we have something that is entirely distinct, and the prettiest of all plumbagoes. The trusses of bloom are larger than in the older varieties, often measuring 10 inches in length, and of the loveliest bright pink or deep rose. Order one and be surprised.

Price, 15 cents each.
GREAT REMNANT SALE, from May 1 to June 1.

CHOICE PLANTS AT... GREATLY REDUCED PRICES.

In growing so many varieties of plants in such large quantities we cannot anticipate orders and grow just what will be required of each variety to meet the demand. We always want to make sure we have enough of everything, and consequently we usually have a surplus of many of our choicest plants. Now, in order to close out our surplus stock at or near the end of the season, we have decided to offer them at greatly reduced prices for 30 days after May 1, or from May 1 to June 1. Persons ordering these collections will be surprised at the number and value of the plants they will contain; in fact, were we to foot them all up at catalogue prices, you would find you were getting them at less than half price. We reserve the right to select varieties, but will allow purchasers to state for what purpose intended, whether for pot culture or bedding; but unless otherwise ordered, the collection will contain plants for both pot culture and bedding.

"MAMMOTH" EXPRESS COLLECTION.

One Hundred Choice Plants by Express for $2.50; Thirty-Five Choice Plants for $1.00.

We have named this collection "MAMMOTH" because it is the "biggest" collection ever offered for the money. It will contain Pea Roses, Hardy Roses, Double and Single Geraniums, Carnations, Chrysanthemums, Fuchsias, Begonias, Hydrangeas, etc., etc., and many other things too numerous to mention. About half of the plants, including the most valuable ones, will be named. This collection will be packed and forwarded by express; purchaser to pay the charges. This collection may be ordered at any time, but all orders received prior to May 1 will be forwarded promptly on that date.
Our Famous Excelsior Pearl Tuberoses.

THE FINEST IN EXISTENCE.
ALL BLOOMING BULBS.

I n tender beauty and delicious fragrance, this lovely flower has no equal. Easy to grow, quick and sure to bloom, combined with our unparalleled low prices, every lover of this sweetest of all flowers should plant them. Those of a thrifty turn of mind will find the sale of the flowers easy and lucrative as they are always in demand at good prices. The bulbs we offer are grown for us in the South, where they become fully mature, attaining a large size, and for general cultivation we doubt if their equal is to be found elsewhere. Certain it is, there are none finer or surer to bloom.

Culture. Tuberoses may be grown indoors preliminary to planting them in open ground. Plant outdoors as soon as the ground becomes warm and all danger of frost is past. Plant 2 or 3 inches deep, and 6 to 8 inches apart in the row. They like rich soil and plenty of sun. If there is danger of frost before the flowers are done blooming in the fall, lift carefully with earth on the roots, plant in pots or boxes in a warm, light place, and they will continue to bloom for several weeks.

Dwarf Excelsior Pearl Tuberose. This grand variety was first offered at 25 cents each in our catalogue of 1876—just twenty-four years ago. Year after year its popularity has increased until the demand for it has reached enormous proportions. Grows about 18 inches high, blooms early and with the greatest freedom; matures perfectly. Flowers pure white, very double, of immense size and intensely sweet. This is the finest tuberose we introduced. Fine, extra large, well ripened bulbs, all sure to bloom.

Price, 5 cents each; 5 for 20 cents; 40 cents per dozen; $3 per 100.

Orange Flowered Tuberose. A very beautiful variety. Bears early in the season, elegant single snow white flowers, resembling orange blossoms.

Price, 5 cents each.

New Variegated Leaved Tuberose. Its deepgreen leaves are finely edged and bordered with broad stripes of creamy white; the star-shaped flowers are very large and sweet. It is a strong vigorous grower, and comes into bloom several weeks earlier than other tuberoses.

Price, 10 cents each; 3 for 25 cents.

Two Splendid Sets of Tuberoses.

Set No. 1.—For Fifty Cents, we will send by mail, postpaid, 10 tuberoses, selected as follows: 6 Excelsior Pearl, 2 Orange Flowered, and 2 New Variegated Leaved, 10 in all, for 50 cents.

Set No. 2.—For One Dollar, we will send by mail, postpaid, 22 tuberoses, selected as follows: 12 Excelsior Pearl, 3 Orange Flowered, and 5 New Variegated Leaved, 22 in all, for $1.
**PALMS**

**Latania Borbonica.**

The well known favorite Fan Palm, beautiful in all stages of growth. No plant is more easily grown, and none more tenacious of life, enduring the dust, the cold and heat from open windows, and gas heated air of our dwellings. It has fan shaped leaves, split into divisions at the apex, and frequently there are threads hanging between the divisions. The plants will grow into magnificent specimens in time. It is a strong, vigorous plant, and makes a fine appearance in the window, or in contrast with other plants in the greenhouse or conservatory.

*Price*, 4 inch pots, 35 cents each; larger sizes, 50 cents and $1.00 each.

**Phoenix Canariensis.**

(Canary Island Date Palm.)

The branches are feather shaped, long, gracefully arched, and, as the picture shows, are borne in luxuriant abundance. The color of the foliage is dark glossy green. The Canary Island Date Palm is of rapid growth, and soon attains large size.

*Price*, 12 inches high, 4 and 5 leaves, 35 cents each.

**Weeping Palm.** (Washingtonia Filifera.)

This is conceded to be one of the best palms for amateur culture. It stands ill treatment with impunity, and thrives where other palms die. It is exceedingly ornamental, with elegant fan-shaped leaves of rich, dark, leathery green, from which hang long, thread-like filaments; a compact grower.

*Price*, 15 cents each; 4 for 50 cents.

---

**Honeysuckles and Other Hardy Vines.**

**Honeysuckles.** For real home vines, to be near you, climbing over your windows and doorways, there is nothing prettier than fine, sweet scented honeysuckles; the foliage is pretty, neat and clean, the flowers almost continuous, and their fragrance delicious.

**Honeysuckle Hedges.** Some of our friends have conceived the idea of planting honeysuckles along the division fences, and it is wonderful what pretty hedges they make. Iron or wire fences are the best, but almost any kind is soon covered with a mantle of living green, making a very pretty and cheap border for lawns, drives, parks, cemeteries, etc. Other climbing vines will answer the same purpose, but the sweet scented honeysuckles are both fragrant and beautiful. They should be planted two feet apart.

*Price*, strong plants, 20 cents each; $1.50 per dozen.

**Wistarias.**

For training over buildings, piazzas, verandas or trellises, the Wistaria is of superior excellence, and the decorative features which their long, graceful blossoms afford make a particularly pleasing effect. They are entirely hardy, rapid growers and easy to cultivate. They may be trained to a shrub form of habit by paying attention to pruning, by cutting away the new growth for several seasons.

*Price*, 20 cents each; 3 for 50 cents.

**Clematis Paniculata.** One of the most beautiful of our hardy flowering vines. The flowers are pure white and are borne in great panicles or clusters of bloom, fairly covering the plants so that it is a mass or sheet of fleecy white. The fragrance is delicious, resembling the English Hawthorn blossoms and so subtle and penetrating that a large plant in bloom fills the air with its exquisite fragrance.

*Price*, 30 cents each.

**Ampelopsis Veitchii.**

(Boston or Japanese Ivy.)

A most satisfactory and beautiful climber; it is entirely hardy and can adapt itself to any locality or exposure; clings fast to stone, brick or wooden walls, and is extensively used on residences, churches, factories, etc., where in summer it covers all with a perfect mat of dark green leathery foliage, which changes as Autumn approaches to brilliant crimson; the foliage serves as a great protection to buildings, the leaves lapping over like tiles on a roof, preventing effectually the rain from penetrating the walls.

*Price*, 15 cents each; 4 for 50 cents.

**English Ivy.** A splendid evergreen climber, with dark glossy green leaves; clings firmly to stone or brick walls, without trellis or support, covering them closely with its splendid foliage; very desirable.

*Price*, 15 cents each; larger size, 20 cents.
Evergreen Trees and Shrubs.

Althea.

Rose of Sharon. One of the most showy and beautiful flowering shrubs. The flowers are of large size, very double and full, and of various brilliant and striking colors. It blooms freely during August and September, when scarcely any other tree or shrub is in blossom. Price, double rose, 15 cents; double white, 15 cents.

Calycanthus.

(Sweet Scented Shrub.)

Flowers purple, very double and deliciously fragrant; remains in bloom for a long time; very desirable. Price, 15 cents each.

Deutzias.

Crenata, fl. pl. Flower double white tinged with pink, in racemes four or five inches long; one of our finest hardy shrubs. Price, 15 cents each.

Forsythia.

(Golden Bell.)

Viridissima. Foliage deep, shining green; flowers bright yellow. A fine hardy shrub and one of the earliest to flower in spring. Price, 15 cents each.

Hydrangea Paniculata Grandiflora.

Most desirable, effective and popular ornamental shrub extant, and its many distinct and striking qualities at once commend it to general favor for yard or lawn decoration. The bush comes into bloom in July and August, yielding profuse, massive cone shaped flowers of the purest white, which, as the season advances, change to delicate pink, and later on to rich coppery red. Seen in the yard or on the lawn while in full bloom, it is truly an imposing spectacle, the prodigal display of white affording such a charming contrast with the green of its surroundings. The period of bloom being late, and prolonged for two or three months, at a season when other flowers are scarce and inferior, serves to impart a degree of summer freshness to the landscape. Price, 25 cents each.

Magnolia Grandiflora.

If you only plant one ornamental tree, you should by all means plant this one. This variety of the magnolia is, by all odds, the handsomest evergreen tree for the South. Its large, shining, green foliage, accompanied in May with large, fragrant, milky white flowers, places it pre-eminently above all ornamental trees. This, as well as all evergreens, requires to be handled and planted very carefully, as they are extremely sensitive to injury from drying. Their roots should never be allowed to get dry when out of the ground. In planting, the soil should be pressed firmly about the roots with the feet; neither should they be planted with roots curled in shallow holes. We have prepared a nice lot of magnolias in 4 and 5 inch pots. Grown thus there is no danger of losing them in transplanting; as all the roots are retained on the plant. From pots, 25 cents each.

Privet.

(Ligustrum.)

California Privet. Remarkable for the beauty of its foliage and its regular symmetrical growth. Leaves are dark green, very glossy and waxlike. We sell thousands of it annually for clumps and hedges. Price, 20 cents each.

Spireas.

Beautiful shrubs of the easiest culture; very desirable for shrubbery or the flower garden.

Van Houtte. The grandest of all the spireas; it is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Clusters of twenty to thirty flat white florets make up the raceme, and these clusters are set close along the drooping stems. Perfectly hardy, and an early bloomer. Price, 15 cents each; 3 for $1.

Anthony Waterer. A new crimson flowered variety, one of the most beautiful of dwarf, flowering shrubs. It makes a low, compact bush, 15 to 18 inches high, and is covered nearly the whole growing season with large umbels of deep crimson flowers. Perfectly hardy, it makes a fine, compact plant for low clumps or for bedding purposes. Grown as a pot plant it is a fine plant for house decoration. Price, 25 cents each; 3 for 50 cents.

Viburnum Sterilis.

(Snowball.)

A well known shrub, attains the height of 8 or 10 feet; produces its snowy white flowers in large balls or masses in June. Price, 25 cents each.

Lilac.

(Syringa.)

White. Rare and beautiful. Very sweet. Price, 20 cents each.

Magnolia Grandiflora.
THERE is scarcely a yard so small, either in country or city, that room for one to a dozen or more grape vines cannot be found. They do admirably trained up by the side of any building, or along the garden fences, occupying but little room and furnishing an abundance of the healthiest of fruits. Make the soil mellow, and plant the vines somewhat deeper than they stood in the nursery. Plant about 8 feet apart, by the fence or building. For vineyard, make rows 8 feet apart, 6 to 10 feet in rows.

PRICE, 15 CENTS EACH; 8 FOR $1.00.

Concord. This standard old variety has so many good qualities that it is justly called the grape for the million; will succeed in almost any locality; bunches large; color, blackish purple; medium early, and immensely productive.

Catawba. Berries large, round; when fully ripe of a dark copper color, with a sweet, rich, musky flavor. Requires a long season to arrive at full maturity.

Delaware. Still holds its own as one of the finest grapes. Bunches small, compact, shoul-dered; berries rather small, round; skin thin, light red; flesh very juicy without any hard pulp, with an exceedingly sweet, spicy and delicious flavor.

Ives’ Seedling. Bunch medium to large, comp-act, often shouldered; berries medium, slightly oblong, of a dark purple color.

Moore’s Early. Bunch large; berry large; round, with heavy blue bloom; vine exceedingly hardy, exempt from mildew or disease. Its earli-ness makes it desirable for an early market; its hardiness particularly adapts it to Canada and northern portions of the United States; succeeds admirably in the south.

Martha. Bunches and berries of medium size; greenish white, with a thin bloom; flesh tender, with very little pulp; juicy, sweet and rich, hardy and productive. Ripens with Concord.

Niagara. The most celebrated white grape now in cultivation, and probably the most valu-able grape ever introduced. Bunches large, comp-act and sometimes shouldered, being large in form; pale green at first, changing to pale yellow when fully ripe, with a whitish bloom; flesh ten-der and sweet; vine vigorous and exceedingly pro-ductive; entirely hardy.

Worden. A splendid large grape of the Con-cord type, but earlier, larger in bunch and berry, and of decidedly better quality; vine harder than that old standby, and every way as healthy.

Niagara.

Delaware.

GOLDEN ARBOR VITÆ.

Biota Orientalis Aurea. The handsomest of all arbor vites; very compact with beautiful golden tint.

Price, 1 foot high, 25 cents each.
DEWBERRIES.
Albino White Dewberry.

This new berry originated in Texas and is claimed to be perfectly hardy in any part of the United States or Canada. It is an entirely distinct variety and different from all dewberries in the shape and appearance of the leaf, which is smaller and more finely cut and of the most luscious shining green color, but the greatest peculiarity is its great productiveness, large size and extra fine quality of the fruit. The originator writes the new white dewberry is a wonderful bearer; it will yield fully three times as much to the vine as any other. They are very large; sweet and delicious, without any hard core in the center.

Price, 10 cents each; $1 per dozen; $5 per 100.

Lucretia Dewberry.

A Variety of Blackberry that will Supercede all other Blackberries for Shipping North.

In this new fruit we have the most delicious of all berries. Years ago they were found growing on the blue hills of Virginia by a Union soldier. Being so impressed with its value, after the war was over and peace had again smiled over our country, he went back and got a few plants of it, but their value for market has never become generally known.

The fruit is very much larger, richer, and far more prolific than any known variety of blackberry. When made into wine it gives a gentle stimulant, the flavor of the wine being as superior as that of the fruit. It ripens before all other blackberries, except Early Harvest, with which it ripens, but is so superior to that it will bring nearly double the price per box. Unlike blackberries, it has no thorns to annoy one in picking.

Price, 50 cents per dozen; $2.50 per 100.

BLACKBERRIES

Should be planted in rows 6 to 7 feet apart, 3 to 5 feet in the rows. Keep the ground light and rich. Pinch the cane back when they have reached four feet in height.

Early Harvest. This is one of the earliest blackberries in cultivation; a compact dwarf grower; fruit medium size and fine quality; an enormous bearer; it is so early, and it bears so well, tastes so well, ships so well, and sells so well, it is of very notable value for a large portion of our country.

Eric. It is claimed to be the best hardy variety yet introduced, having stood unharmed a temperature of 25 degrees below zero; as vigorous as Missouri Mammoth or Kittatinny; very productive, not having failed in producing a fine crop since it was originated; foliage clean and healthy, free from rust; fruit large, about the size of Lawton; round in form, giving it the appearance of being even larger than it really is; good quality.

Snyder. Extremely hardy, enormously productive, medium size; no hard, sour core; half as many thorns as Lawton or Kittatinny; they are nearly straight and short.

Taylor. One of the largest; fruit of the best quality, melting, and without core. Nearly as hardy as Snyder; berries much larger; one of the most productive; ripens late. In all sections subject to severe winters it is one of the very best.

Wilson’s Early. Of largest size; very early; beautiful dark color; of sweet, excellent flavor, and very productive; ripens the whole crop nearly together.

Wilson’s Junior. Large and productive, originated from seed of Wilson’s Early, which it resembles.

Price, 50 cents per dozen; 30 for $1.

Asparagus.

Conover’s Colossal. A mammoth variety of vigorous growth, sending up from fifteen to twenty sprouts each year, from 1 to 2 inches in diameter; color deep green and crowned very close.

Price, 1-year roots, $1 per 25; $1.25 per 100.

Rhubarb, or Pie Plant.

This deserves to be ranked among the best early fruits in the garden. It affords the earliest material for pies and tarts. Continues long in use and is valuable for canning. Make the border very rich and deep.

Linnaeus. Large, early, tender and fine. The very best of all.

Price, 15 cents each; 8 for $1.

Jerusalem Artichoke.

Grown exclusively for its tubers, which somewhat resembles potatoes and are cultivated in a similar manner, only that the rows should be at least 4 feet apart when grown in strong soil; it is enormously productive, producing over 800 bushels of per acre; is used mostly in feeding stock, and not bad for the table.

Price, per quart, 10 cents; half peck, 30 cents; peck, 50 cents.

EVERBLOOMING ROSE COLLECTION.

20 CHOICE ROSES 20

Very fine plants. Best sorts.

OUR SELECTION, FOR $1, POSTPAID.
RASPBERRIES.

Shaffer Colossal.
A Raspberry that Succeeds on any Soil.

This raspberry will certainly revolutionize raspberry growing in the South, as it succeeds on all kinds of soil, on the sandy upland as well as the river bottoms. It neither burns out in the summer nor freezes out in winter. It is a stronger grower than any other variety, and produces more to the acre than any kind we have ever known, the canes literally bending to the ground with fruit. It is the largest of all raspberries. The color is purplish red, very juicy, rich and spicy in flavor. It retains this flavor after canning better than any other. No one need fail to have an abundance of fruit if they plant this variety. We have planted it on ordinary upland, and gathered at the rate of 150 bushels to the acre—quarts having been picked from a single bush.

Price, 50 cents per dozen; $2 per hundred.

Turner. (Southern Thornless.) Extremely hardy and desirable as an early sort for the home garden, but too soft for market purposes. The canes make a strong, healthy growth, and are very productive. Berries of good size; bright crimson color; soft and of honeyed sweetness. The plants succor immediately, and these should be treated as weeds. Early.

Price, 50 cents per dozen; $2 per hundred.

Thompson’s Early Prolific. Probably the best early red raspberry for general cultivation that we now have. The plant is an excellent grower; canes erect, stout and hardy. Berries are medium to large in size, of a bright crimson color; very productive. It is the earliest red raspberry we have seen, coming into bearing just as the strawberry season is over.

Price, 60 cents per dozen; $3 per hundred.

GOOSEBERRIES.

Plant 3 to 4 feet each way; manure well; after fruit is gathered prune out all old wood.

Houghton’s Seedling. Small to medium; roundish oval; pale red; sweet, tender, very good; plants spreading; shoots slender; enormously productive. Price, 10 cents each; 10 for 75 cents.

Fay’s Prolific. Never since its introduction has there been enough plants to supply the demand for this, one of the best red currants; its quick jump into popular favor as soon as tested, the ever increasing demand shows that all claims made for it have been more than fulfilled. Large stems and berries, uniform in size, very productive, easily picked. For home use or market, the leading variety.

Price, 10 cents each; 10 for 75 cents.

Austin’s Improved Dewberry.

A new variety from Texas. The berries are much larger than those of any other dewberry. We have found it to be an exceedingly valuable one. The fruit is jet black; very large; the flavor superior; ripens a week or ten days ahead of any other variety. For productiveness it out rivals all dewberries, and it is a profitable market sort; canes healthy and stands our dryest summers well.

Price, 10 cents each; per dozen, 75 cents; 100, $3.
STRAWBERRIES.

... NEW, RARE AND ...

STANDARD SORTS FOR THE SPRING AND FALL OF 1900.

First of the small fruits in the spring comes the beautiful, wholesome and appetizing strawberry.

Its importance as a source of revenue is yearly increasing with the improved varieties and more economical methods of culture. Our markets are well and cheaply supplied with this wholesome fruit, but those who would know what delicious strawberries are must have them fresh from the vines, and may with a careful selection of a few hundred plants, say in a half dozen varieties, prolong the season of ripening for a period of four to eight weeks. Some varieties do better in some localities than others, but this can only be found out by trial. Where selections of varieties are left to us we send only those that succeed best here, strictly pure and true to name, including earliest, medium and latest varieties, with suitable varieties for fertilizing, to expand the season to its full limit.

A well kept strawberry bed is an ornament to any garden, and the labor required to keep it in order is a pleasant pastime when one has in mind the rich treat in store for him. They delight in a moist, rich soil; any ordinary soil will grow strawberries, although they will amply repay by fertilizing freely with any good fertilizer at your command. Good barnyard manure, well rotted, is perhaps the best and most easily obtained. Either well mixed in the soil or used as a mulch or top dressing, will amply repay you with large berries and plenty of them. Avoid planting under or near trees, as they dislike shade.

For field culture plant in rows 4 feet apart, with the plants 1 foot apart in the row; for garden or hill culture, 12 to 15 inches apart each way in the beds 4 feet wide, with alleys 2 feet wide between beds, so that the fruit may be easily picked, and the bed kept clean without stepping on them.

The blossoms of all varieties are bisexual or perfect, except those marked with the letter P, which are destitute of stamens and are termed Pistilata, or imperfect flowered, and must have a row of perfect flowered sorts planted every 15 or 20 feet apart in rows among them, to pollinize their blossoms, without which they would produce imperfect fruit, and but half of it, but when properly fertilized, as a rule, they are more prolific than those with perfect flowers. There is no reason for any prejudice against them. The Staminata, or perfect flowered sorts, are marked with the letter S. Success depends in a great measure on getting fine, healthy plants, strictly pure and true to name. This we know our plants to be. All plants are tied separate and properly labeled and classed, and some good sort added, to fertilize, gratis. If not already ordered the varieties here enumerated are the very best, according to our long experience, and we advertise them without reservation or guarantee.

We endeavor to handle our plants in the very best manner—they are carefully cleaned, the roots straightened, neatly tied in bunches and properly labeled. When ordered sent by mail 10 cents per dozen or 25 cents per hundred extra is required to pay postage. We make a specialty in growing the leading varieties required for nurseriesmen and planters, having tested and added the past season many new and older varieties of decided merit, with others in reserve, thereby enabling us to more fully supply your wants as to varieties. By growing and offering the large number of meritorious leading sorts we do, enables us to supply our patrons with sorts popular and adapted to their section of country, and would call your special attention to the large and complete addition of new varieties we have added to our already large list the past season, which is now probably the largest and most valuable selection to be found in this country. No time or expense has been spared to find the best of everything new and valuable in the strawberry family for our patrons, having purchased from originators and strictly reliable parties, testing them on our experimental grounds, in most cases, before offering them, discarding such varieties that have been found wanting, thereby enabling us to guarantee everything pure and strictly true to name. We have the new varieties offered this season put on our trial grounds, and after noting their merits will offer all found worthy in our fall and next season's catalogues.

The following enumerated sorts are those usually grown for the home and shipping trade, and have been fully tested. The varieties in large type we have grown in large quantities, have been widely tested and are among the best of their class, noted for their drouth-resisting qualities, healthy, robust habits, productiveness, and good market qualities. Each has its special merits. In describing their merits we have endeavored to correctly give our own observations, as far as known, in connection with originator's description of their merits, without misrepresentation. In filling orders or for large planting, when prices are not quoted by the 1000 or more, will quote lowest rates by return mail; 50 at 100 rates, and 500 or more at 1000 rates.
Arkansas Traveler (S). A productive midseason berry; bright scarlet color, of good size and a strong pollinizer. Per dozen, 25c; 100, 50c; 1000, $2.

Arkansas Traveler.

ATLANTIC (S). This is a late dark red, highly colored, attractive berry; fruit nearly the shape of Haverland; it is very firm; an excellent shipper. Per dozen, 25c; 100, 50c.

AROMA (S). Large, glossy red; productive; profitable midseason to late. Per dozen, 25c; 100, 50c; 1000, $2.50.

ACOMAC (S). Midseason berries; large, conical, dark crimson; fine color and quality. Per dozen, 50c; 100, 50c; 1000, $2.50.

ALABAMA (S). A medium early Southern variety of merit; grown extensively for shipment. Per dozen, 25c; 100, 75c.

AUBERON (S). Very prolific and healthy; beautiful dark crimson; fruit firm and attractive. Per dozen, 25c; 100, 75c.

AUSTRALIAN EVERBEARING (S). A profitable California variety; berries large size, glowing crimson; firm; fine aromatic flavor; gives full spring crop, bearing occasionally until fall. A great acquisition for the home garden. Per dozen, 30c; 100, $1.

ALPHA (S). Dark crimson; berries in profusion; plant stands drouth well; robust habit. Per dozen, 25c; 100, 50c.

ANNA KENNEDY (P). Berries medium to large, brilliant red, rich and sweet; healthy foliage. Per dozen, 25c; 100, 75c.

ADVOCATE (S). Large size, regular shape, firm, quality good; great yielder. Per dozen, 25c; 100, 60c.

AITON (S). Berries dark red; medium size; very prolific. Per dozen, 25c; 100, 50c.

ARMONT, or IMPROVED PARKER EARLE (S). An improved seedling of Parker Earle; earlier, more thrifty; color of fruit a bright dazzling red with golden seeds; flavor rich. Per dozen, 30c; 100, 75c; 1000, $4.

BUSH CLUSTER (P). One of last season's new berries of merit; of vigorous, upright growth, with strong fruit stems; productive and of fine flavor. Per dozen, 30c; 100, 50c; 1000, $5.

BAILIE'S GIANT (S). Large to very large; makes stocky plants; few runners; midseason to late. Per dozen, 30c; 100, 75c.

BISSEL (P). Fruit large, luscious and firm; color deep glossy red; very productive. Per dozen, 30c.

BERLIN (P). Plant healthy; a good solid berry; good shipper; berries resemble Bubach. Per dozen, 20c; 100, 50c.

BOMBAY (S). A strong growing prolific variety; large fruit, firm; a good shipper; berries rich crimson, dark red flesh. Per dozen, 25c; 100, 60c.

BLONDE (S). Bright red berries; fine flavor; good shipper; productive. Per dozen, 25c; 100, 75c.

BRADLEY (S). Plant large and healthy; fruit dark glossy red; flesh very firm; prolific and a good shipper. Per dozen, 25c; 100, 50c.

BISMARCK (S). An Arkansas variety of merit; very large, perfect; well colored; bright scarlet berries; a good shipper; productive. Per dozen, 25c; 100, 50c.

BARTON'S ECLIPSE (P). Healthy and very productive; very large berries; bright scarlet; uniform size; excellent quality. Per dozen, 20c; 100, 50c; 1000, $2.50.

BEVERLEY (S). Medium to large; productive midseason; a desirable sort. Per dozen, 25c; 100, 50c.

BUBACH NO. 5 (P). A profitable shipping variety; fruit very large; ripens midseason; productive. Per dozen, 30c; 100, 50c; 1000, $2.50.

BANQUET (S). Noted for its rich wild berry flavor; a good amateur sort; berries rich dark crimson; midseason. Per dozen, 25c; 100, 75c.

BEEBE (S). Fine for home use; ripens midseason; berry large, productive. Per dozen, 25c; 100, 50c.

BIDWELL (S). Handsome bright glossy crimson berries; productive; profitable for home market. Per dozen, 25c; 100, 50c.

BELLE (S). A long neck shaped large berry of good quality; season late. Per dozen, 25c; 100, 50c.

BEAUTY (S). Plants healthy and vigorous; berries large; bright red color; productive. Per dozen, 25c; 100, 50c.

BELMONT (S). A late season large oblong berry; plants productive and healthy. Per dozen, 20c.

BLACK ALPINE (S). A dark crimson berry of fair size; bears well a long season in any climate. Per dozen, 25c; 100, 75c.

BOYNTON (S). An early midseason berry, healthy and productive; large, firm; bright color. Per dozen, 20c; 100, 50c; 1000, $2.50.

Bedder Wood (S). Early; heavy bearer; good sized berries. Per dozen, 20c; 100, 50c; 1000, $2.50.
BURI, or CAPTAIN JACK (S). Productive; midseason; good shipper; good pollinator. Per dozen, 20c; 100, 50c; 1000, $2.50.

Brandywine (S). Season late; good grower; productive; large berries. Per dozen, 25c; 100, 50c; 1000, $2.50.

Clarence (S). A new berry of merit; of strong, healthy habit; prolific, and a good shipper. Per dozen, 50c; 100, $1.50.

COBEN QUEEN (P). A new variety of fine size and beautiful appearance; a seedling of Wilson. Per dozen, 25c; 100, 50c; 1000, $2.50.

CARIE (P). A new seedling of Haverland, which it resembles in shape, and an improvement on that variety in size and color. Per dozen, 25c; 100, 75c.

CHILD'S IOWA BEAUTY (S). Plant vigorous, healthy and productive; berries brilliant crimson; beautiful in form; a first class table variety. Per dozen, 25c; 100, 50c; 1000, $3.

CINDERELLA (S). Large, conical; regularly formed; bright glossy scarlet berries. Per dozen, 20c; 100, 50c; 1000, $2.

CAMILLA (S). Robust healthy plants; productive midseason; good sized berries. Per dozen, 25c; 100, 50c.

Charles Downing (S). An old, vigorous and productive standard sort; fruit large, conical, firm and sweet; scarlet color. Per dozen, 20c; 100, 30c; 1000, $2.

Columbia (S). A Southern market sort; globular in shape; bright purplish scarlet berries; medium size; prolific; early midseason; healthy robust habit. Per dozen, 20c; 100, 40c; 1000, $2.

CUMBERLAND TRIOMPH (S). Large, late, robust habit; fruit light scarlet, large uniform size. Per dozen, 25c; 100, 50c; 1000, $2.50.

CAROLINA SUPERBA (S). Large, bright scarlet; midseason berry. Per dozen, 25c; 100, 75c.

DUPREE. A new variety worthy of another trial; prolific and robust habit. Per dozen, 40c; 100, $1.50.

DOLE (S). A new variety, highly praised by all who have tried it to be very superior; a remarkably sweet and rich flavor; large size, dark rich crimson color; a very prolific bearer; vigorous and strong; healthy growth. Per dozen, 50c; 100, $2.

DELAWARE (S). A new variety of last season's introduction; a prolific, healthy variety; highly praised. Per dozen, 40c; 100, $1.

DROUGHT KING (P). Stands drought well; healthy, early and productive; fruit large, beautiful red color; uniform size. Per dozen, 25c; 100, 50c.

DOLLAR (S). Large, early midseason; glowing crimson berries; good flavor; plants strong and healthy. Per dozen, 25c; 100, 50c.

DOWNER'S PROLIFIC (S). Yields well; an old standard sort over entire country; nearly round bright scarlet berries. Per dozen, 20c; 100, 40c.

DAYTON (S). Early midseason; large, handsome; best for home market. Per dozen, 25c; 100, 50c; 1000, $2.50.

DEVOSREAUX (S). Fruit large size, medium to late; fine home berry. Per dozen, 25c.

DARLING (S). A new productive early variety. Per dozen, 20c; 100, 50c.

DEW (S). A firm large berry for fancy market; good keeper and shipper; rich dark crimson berries; healthy foliage. Per dozen, 25c; 100, 50c.

EDITH (P). A large and remarkably fine new berry; productive and firm; of excellent quality; splendid for gardens or fancy growers who wish extra large berries. Per dozen, 40c; 100, $1.50.

EXCELSIOR (S). This new Arkansas berry is growing in favor, and pronounced as best early berry of late introduction; its strong, robust, healthy habit, profuse early bearing, large size and good shipping qualities recommend it to all; it should be in every collection, large or small. Per dozen, 30c; 100, 50c; 1000, $3.50.

ECHO (S). A new and very productive variety of healthy, robust habit; fruit large and the highest flavor; ripens midseason; a great table berry; every fruit grower should have it in his garden. Per dozen, 30c; 100, 50c.

ELBA (S). Rapid healthy grower; early and productive. Per dozen, 25c; 100, 75c.

EPPLING, or YANKO DOODLE (S). Hardy, prolific and healthy; good berries large to medium; conical, bright scarlet. Per dozen, 25c; 100, 50c.

EQUINOX (S). Late, productive, medium to large berries; produces strong healthy plants. Per dozen, 20c; 100, 50c; 1000, $2.50.

Excelsior (S). A new very early Arkansas berry of much promise; makes strong healthy plants freely; berries large, well shaped; claimed to be the best early sort out. Per dozen, 30c; 100, 50c; 1000, $3.
EDGAR QUEEN (P). Large, bright crimson berries; productive; fine for home market. Per dozen, 25c; 100, 50c; 1000, $2.50.

EDGAR KING (S). Robust, healthy plants; large berries; an improvement on Edgar Queen. Per dozen, 75c; 100, 75c.

EARLIEST (S). Said to be the earliest known; healthy habit; new and not tested fully here. Per dozen, 50c; 100, 50c; 1000, $3.

EVANS (S). Foliage resembles Gandy; large and productive; new and highly recommended. Per dozen, 45c; 100, 75c.

EVERGREEN (S). Large, dark green healthy foliage; large scarlet berries produced in abundance. Per dozen, 25c; 100, 50c.

Early Jack (S). Makes runners freely; medium sized; globular, glossy scarlet berries in profusion; early midseason. Per dozen, 25c; 100, 50c; 1000, $1.50.

ENHANCE (S). Vigorous and healthy grower; good pollenizer; berries large size, perfect bright crimson; good shipper. Per dozen, 20c; 100, 50c; 1000, $2.50.

ERIE (S). Plants healthy and thrifty; berries conical, bright scarlet color; good quality; keeps well. Per dozen, 20c; 100, 50c; 1000, $2.50.

EARLY DAWN (S). Stands drouth well; popular in California; a promising variety here for near market. Per dozen, 20c; 100, 40c; 1000, $2.

EUREKA (P). Withstands drouth; healthy and productive; berries large size, bright crimson color; medium to very late. Per dozen, 25c; 100, 50c; 1000, $2.50.

ELEANOR (S). Medium to large; midseason; bright scarlet; equals Crescent as a shipper. Per dozen, 20c; 100, 40c; 1000, $2.50.

E. P. ROE (S). Productive and late; fruit large, conical, dark scarlet; excellent flavor. Per dozen, 20c; 100, 50c; 1000, $2.50.

Early Scarlet (S). Early midseason; medium size; very productive; dark scarlet berries; delicious wild flavor; known as Benton scarlet; good shipper. Per dozen, 25c; 100, 40c; 1000, $1.50.

GANDY (S). Healthy habit; large bright scarlet, oblong shaped berries; productive and desirable. Per dozen, 25c; 100, 50c.

FLUSH (S). Healthy habit; large bright scarlet, oblong shaped berries; productive and desirable. Per dozen, 25c; 100, 50c.

FARNSWORTH (S). Large showy berries. Per dozen, 25c; 100, 75c.
FOUNTAIN (S). A desirable productive berry, deep red, large and handsome. Per dozen, 25c; 100, 50c.

Finch’s Prolific (S). A very fine variety. Vigorous, healthy growth; stands drought; large conical uniform bright scarlet berries; a firm, good shipper. Per dozen, 20c; 100, 50c; 1000, $2.

GARDNER (S). Large, light color; productive, of rich flavor; holds its size to last picking; ripens early. Per dozen, 25c; 100, 50c; 1000, $2.50.

GREAT PACIFIC (F). Hardy, strong grower; yields heavy; a good shipper; berries large, good color. Per dozen, 20c; 100, 50c; 1000, $2.50.

GILLESPIE (S). A seedling of Haverland of good quality. Per dozen, 25c; 100, 75c.

GOVERNOR HOARD (S). Large firm berries of good quality. Per dozen, 25c; 100, 50c.

GEN’L SHERMAN (S). Strong, healthy growth; large showy fruit; excellent quality; ripens midseason. Per dozen, 20c; 100, 50c; 1000, $2.50.

GLENDALE (S). Of special value as a late market berry; firm and productive; good for canning. Per dozen, 25c; 100, 75c.

Greenville (F). An improvement on Bobach in vigor of plant; productive; berries regular in form, rich bright crimson color, medium to large. Per dozen, 20c; 100, 50c; 1000, $2.

GLEN MARY (F). Large, good color; fairly firm; medium to late. Per dozen, 25c; 100, 75c.

Gandy Belle, or Isabelle (S). An ideal beauty; productive berries; largest size; dark red, when ripe; good shipper; ripens midseason. Per dozen, 25c; 100, 50c; 1000, $2.50.

GEISTER (S). A promising new variety; highly recommended; not yet fruited with us; plant good, healthy grower. Per dozen, 25c; 100, 75c.

Gandy (S). A standard late variety; large, firm, fine color. Per dozen, 25c; 100, 50c; 1000, $2.50.

GOLD (S). Large showy fruit, productive and good keeper; berries bright scarlet, golden seeds. Per dozen, 25c.

HUNX (F). This is claimed to be the latest berry in cultivation by its introducers; ripens a week later than Sharpless, some later than Gandy; a large dark colored berry of uniform shape and size; firm and very attractive; a fine shipper. Per dozen, 25c; 100, 50c.

Hoffman’s Seedling (S). One of the best extra early market berries for the South; productive, and a good shipper. Per dozen, 20c; 100, 50c; 1000, $2.

HOLLAND (F). A well known, profitable market berry of Arkansas origin; rank grower; dark, reddish, crimson berries. Per dozen, 20c; 100, 50c.

HAVERLAND (S). A good, large, productive market berry; berries long, large and uniform size. Per dozen, 25c; 100, 50c; 1000, $2.50.

HENRY (S). A new variety, introduced by American Garden; highly recommended; large berries and plants, resembles Marshall. Per dozen, 20c; 100, 50c.
HOVEY'S SEEDLING (S). An old variety of merit. Per dozen, 25c.

HAYNES' ECLIPSE (P). A productive, strong, healthy grower; showy fruit; excellent quality; midseason to late. Per dozen, 20c; 100, 50c; 1000, $2.

HENRY WARD BEECHER (S). Firm, large round berries; rich, scarlet color; season, medium to late; productive. Per dozen, 25c; 100, 50c.

HOWELL'S SEEDLING (S). Fine berry; looks well, sells well, ships well; midseason. Per dozen, 25c; 100, 75c.

J. W. McNeil (P). A new southern berry of merit; a strong, healthy grower; prolific bearer; medium sized berries; dark crimson color. Per dozen, 25c; 100, 50c; 1000, $2.50.

Jefferson (S). Large, round, well shaped, orange red berry; of good quality; productive; excellent in every way. Per dozen, 20c; 100, 50c; 1000, $2.

JESSIE (S). Does well on new beds; does well on heavy clay soil; fruit large; holds size to last picking. Per dozen, 25c; 100, 50c; 1000, $2.50.

JERSEY QUEEN (P). A royal berry, large and beautiful; valuable for home garden; late to very late. Per dozen, 25c; 100, 50c.

JUMBO (S). Berries large, perfect form, bright scarlet color. Per dozen, 25c; 100, 75c.

JAY GOULD (S). Prolific, healthy plants; medium sized, scarlet berries, with golden seeds. Per dozen, 25c; 100, 75c.
JERSEY MARKET (P). A new ideal strawberry; bright color; good keeping qualities; productive. Per dozen, 20c; 100, 75c.

KLONDIKE (S). Originated in Massachusetts, where it has made a good record; a good grower; thick, dark green, healthy foliage; late in blooming; a great bearer; seldom injured by frost; berry dark red when ripe; red clear through; very large and beautiful. Per dozen, 30c; 100, 75c.

KANSAS PROLIFIC (S). Robust, healthy growth; productive; berries good size, dark crimson color. Per dozen, 20c; 100, 50c; 1000, $2.

KYLE (From Michigan). Berries quite firm; shining, rich carmine color; quite attractive; a vigorous, healthy grower. Per dozen, 25c; 100, 75c.

KING WORTHY (S). Large, attractive and of choice color; midseason. Per dozen, 30c; 100, 75c.

KLICKITIA (S). A superior home variety; showy, large, perfect berries in profusion. Per dozen, 25c; 100, 75c.

KENTUCKY (S). One of the best late dark red varieties; fine for a home market; productive; succeeds well anywhere. Per dozen, 20c; 100, 50c; 1000, $2.

KATIE (S). Large, showy berries; a good home market berry. Per dozen, 25c; 100, $1.

LOUIS GANTHIER (S). Something unique in the strawberry world in color, flavor and time of ripening; color white or creamy with pinkish blush on one side; flavor sweet and delicious; continues in bearing a long time; in some sections everbearing; splendid for a fancy garden berry. Per dozen, 50c; 100, $2.

LUTTER (S). Strong, robust, healthy habit; a new variety not yet tested with us, but coming well recommended. Per dozen, 30c; 100, $1.

LEO (S). A new variety of merit; healthy, robust habit; large, showy berries; promises to be a valuable variety. Per dozen, 30c.

LANALAN (S). A large and productive berry, resembles Lady Thompson; a model berry. Per dozen, 25c; 100, 50c; 1000, $2.50.

LEHIGH (S). Productive, fine flavored, large and showy; a berry for the million. Per dozen, 25c; 100, 50c; 1000, $2.50.

LADY BLUSH (P). One of the nearest type of a white strawberry; healthy and prolific; the fruit is brilliant yellowish white, faintly touched light red; larger than Marshal. Per dozen, 50c.

LINDA (S). Large, dark red; great shipper. Per dozen, 30c; 100, 75c.

LADY BUSH (P). Healthy plant; bright, handsome scarlet berries; good flavor; productive; a good shipper. Per dozen, 20c; 100, 50c; 1000, $2.

LOYD'S FAVORITE (S). Plant vigorous and productive; fruit good color, large and good shipper. Per dozen, 20c; 100, 75c.

LEVI (S). Plants healthy; valued for its deliciously sweet and highly flavored berries. Per dozen, 20c; 100, 50c; 1000, $2.

LOUISE (S). A grand berry of large size; with good culture bears heavily; a fancy home berry. Per dozen, 30c; 100, 75c.

LINDA (P). A productive, large sized berry; bright red color. Per dozen, 30c; 100, 75c.

LONGFELLOW (S). One of the desirable late sorts, with enormously long, large fruit; dark red color; firm; fine flavor. Per dozen, 30c; 100, 75c.

LADY THOMPSON (S). Large, even sized; good color; early and productive; a good shipper; fine flavor; strong, healthy growth; one of the best. Per dozen, 25c; 100, 50c; 1000, $2.

LATEST OF ALL (S). A popular, productive, late English variety; succeeds well in this country. Per dozen, 20c; 100, 50c.

LEADER (S). An early, very large berry; crimson color; a productive; a good shipper. Per dozen, 20c; 100, 50c; 1000, $2.50.

LINCOLN (S). Strong growing, healthy plant; fruit rivals Sharpless in size; does best on heavy soils; season medium to late. Per dozen, 20c; 100, 50c; 1000, $2.

LENNING'S WHITE (S). A very rare and scarce, creamy white variety, tinted with red when exposed; delicious flavor. Per dozen, 50c.

LADY FINGER (S). The berries are very large, long necked, and of excellent quality. Per dozen, 30c; 100, 75c.

LOVETT'S EARLY (S). (Not early); excellent, conical formed berries, uniform in size, color, bright crimson; ripens midseason. Per dozen, 25c; 100, 50c; 1000, $2.50.

LONGWORTH'S PROLIFIC (S). An old favorite noted for its productivity and flavor. Per dozen, 20c; 100, 50c; 1000, $2.50.

McKINLEY (S). New; introduced by Elwanger & Barry, who claim that it is a superior strawberry, being remarkable for its size, shape color and quality; it has been tested in many places and every report is favorable; it fruited with us the past season and am well pleased with it; am confident it will prove a standard sort and succeed over a wide area; plant is remarkably healthy and productive; resists drought well. Per dozen, 25c; 100, 50c; 1000, $4.

Michel's Early (S). Earliest market sort; productive, and a good shipper; good size and quality. Per dozen, 20c; 100, 50c; 1000, $2.

Manchester (P). Strong, productive grower; a profitable berry for market or home use; fruit large, uniform in size; season late. Per dozen, 20c; 100, 50c; 1000, $2.

Minor's Prolific (S). Large, dark berries; rich, mild flavor; healthy foliage; yields heavily; one of the best for home or market use. Per dozen, 20c; 100, 50c; 1000, $2.

Murray's Extra Early (P). Ripens about with Michel's Early; firm and handsome; profitable in many sections. Per dozen, 20c; 100, 50c; 1000, $2.

Maxwell's No. 1 (S). Plant growth immensely strong and healthy, of the Chas. Downing type; resembles that variety in size and shape, but larger and more productive. Per dozen, 20c; 100, 50c; 1000, $2.

MAXWELL'S No. 2 (S). Immensely productive; medium to large berries; light, scarlet color; good home or market berry. Per dozen, 20c; 100, 50c; 1000, $2.

MAYFLOWER (S). Healthy, early and productive. Per dozen, 30c; 100, 75c.
May King (S). A productive, strong, healthy grower; resembles Crescent, of which it is a seedling, earlier and larger. Per dozen, 20c; 100, 50c; 1000, $2.50.

Meek’s Early (S). One of the best very early berries, of large size; productive, healthy, thrifty grower; berries firm; a dark crimson color when fully ripe. Per dozen. 20c; 100, 50c; 1000, $2.

MARSHAL (S). Heavy foliage; vigorous growth; fruit large and showy; popular home berry. Per dozen, 50c; 100, 75c; 1000, $3.

MELE (S). Plant large, healthy and productive; berries large, uniformly heart shaped; color, scarlet; firm; good quality; ripens through a long season. Per dozen, 50c; 100, 50c.

MIAMI (P). Strong, healthy grower; berries large, handsome shape; dark crimson; good quality; firm. Per dozen, 25c; 100, 50c; 1000, $2.

MRS. CLEVELAND (P). Very large berry; color, scarlet; Cumberland type; stands drouth; plant vigorous and healthy. Per dozen, 25c; 100, 50c; 1000, $2.50.

MORE’S PROLIFIC (S). With good culture and soil is immense in size and beauty; an excellent pollinizer. Per dozen, 30c; 100, 75c.

MARY (P). Very large; firm; deep crimson; conical shaped berries; needs good culture. Per dozen, 25c; 100, 75c; 1000, $5.

MEXICAN EVERBEARING (S). Dark green foliage; strong robust habit; fruit large; cherry red; high flavor; produces good spring crop, and at intervals all summer. Per dozen, 30c; 100, 50c; 1000, $5.

MIN-EOLA (S). Berries large and sweet; rank, strong grower; a favorite Long Island berry. Per dozen, 30c; 100, 75c.

MORGAN’S FAVORITE (S). Plants large, strong and healthy; fruit of the largest size; good quality for home growing, and near market brings big figures. Per dozen, 25c; 100, 75c.

MUSKINGUM (S). Vigorous, healthy plant; fruit nice; red, glossy color; large size to end of season; keeps several days without spoiling. Per dozen, 25c; 100, 75c.

MAGOON (S). From Oregon; large; good shipper. Per dozen, 25c; 100, 75c.

MANWELL (S). Firm; beautiful color; good flavor; midseason. Per dozen, 30c; 100, 75c.

MICHIGAN (S). Late as Candy; bright, rich crimson; blantly conical; large berries; productive. Per dozen, 30c; 100, 75c.

MAMMOTH SHARPLESS (S). An improvement in size on the old standard Sharpless; robust, healthy habit; new. Per dozen, 50c.

MARGARET (S). A new, highly praised, midseason variety, of healthy robust habit; productive; color dark, glossy red; stands drouth well. Per dozen, 30c; 100, 50c; 1000, $2.50.

MOUNT VERNON (S). Plant vigorous and healthy; berries extra large, roundish, conical in form; bright red; not very firm, but excellent quality; productive; late to very late. Per dozen, 25c; 100, 50c; 1000, $2.

NEM’S SEEDLING (S). A productive, new sort; a great plant-maker; resists drouth well. Per dozen, 30c.

NIKL (S). Robust, healthy plants; prolific; perfect berries. Per dozen, 50c; 100, 50c.

NICK OHMER (S). New and highly praised; largest size, a giant among strawberries; robust healthy habit; dark, glossy red fruit; firm and productive. Per dozen, 30c; 100, 50c.

Nonan’s Improved (S). A standard southern shipping variety; noted for its productivity and shipping qualities in extreme southern states. Per dozen, 20c; 100, 50c; 1000, $2.

ORIOLE (P). An extra early berry, ripening only two or three days behind Michel’s Early; is also a large berry, very productive; deep red color, with seeds standing well out on the surface; it is well worthy of trial. Per dozen, 25c; 100, 50c.

ORANGE COUNTY (P). Color bright red; ripens with Sharpless; fruit larger; productive. Per dozen, 25c; 100, 50c.

OLD IRON CLAD (S). A grand old standard berry; plants vigorous; stands drouth well; midseason. Per dozen, 25c; 100, 50c.

OCEAN CITY (S). Similar to Sharpless, but better; ripens midseason. Per dozen, 25c; 100, 50c.

ORACLE (S). Plant vigorous grower; dark scarlet berries, similar to Bubach. Per dozen, 25c; 100, 75c.

PET (S). A variety of the Sharpless class; plant is strong and vigorous and more productive than Sharpless; the fruit is very large and remarkably sweet and highly flavored; bright and firm; commands a fancy price. Per dozen, 30c; 100, 50c.

PHILLIPS’ SEEDLING (S). Productive, vigorous, healthy grower; berries large, firm, and a good shipper. Per dozen, 25c; 100, 50c; 1000, $2.

PRIDE OF CUMBERLAND (S). Resembles Grandy; ripens a week earlier; large and productive. Per dozen, 30c; 100, 50c.
PHOENIX (S). A profitable, new variety, worthy of further trial. Per dozen, 30c.

PARIS KING (S). Plant healthy and vigorous; fruit large to very large; somewhat irregular in shape, out of good quality. Per dozen, 25c; 100, 50c; 1000, $2.50.

Price's Seedling (S). Seedling of Haverland; healthy grower; productive; medium sized berries; a profitable market berry. Per dozen, 25c; 100, 50c; 1000, $2.

Prince of Berries (S). Fine flavor; good quality; brilliant in color; productive; large size and healthy; a No. 1 berry in all respects. Per dozen, 20c; 100, 50c; 1000, $2.

PRIDE OF THE WEST (S). A fine Pacific Coast variety of the Shuckless type: fruit large, long and sweet; worthy of trial. Per dozen, 30c; 100, 50c.

PEARL (S). Vigorous, healthy grower and productive; berries large, conical, bright glossy crimson; very sweet, pleasant flavor; good market sort. Per dozen, 25c; 100, 50c; 1000, $2.50.

RISE (S). This very early shipping variety has proven of highest value in Florida and the far South; plant strong, healthy growth. Per dozen, 25c; 100, $1.

RUBI'S Prolific (S). In very early, of average size; good color, good shipper and vigorous grower; supposed to be a cross from Lady Thompson and Hoffman; the plants bear more fruit the second year than they do the first after setting. Per dozen, 25c; 100, 50c.

RISING (S). This very early shipping variety has proven of highest value in Florida and the far South; plant strong, healthy growth. Per dozen, 25c; 100, $1.

Rugby (S). Large; dark red; good plant maker; new and desirable. Per dozen, 30c; 100, 50c.

ROSE (S). Medium sized bright red fruit; plant vigorous and healthy. Per dozen, 25c; 100, 50c.

RIO (S). Medium to large; good quality; bright red fruit; wonderfully productive; ripens midseason. Per dozen, 25c; 100, 50c; 1000, $2.50.

Robinson (S). Large at first pickings; of the Crescent type; plant healthy and vigorous; season late. Per dozen, 20c; 100, 50c; 1000, $2.

REGINA (P). Valuable for its extreme late-ness; a strong, good growing, healthy plant maker; succeeds on most soils; color bright clear scarlet; superior quality. Per dozen, 20c; 100, 50c; 1000, $2.

RALEIGH (S). Large, firm, productive and of good quality. Per dozen, 25c; 100, 50c.

Splendid (S). Uniform in size: excellent shipper; ripens midseason. Per dozen, 20c; 100, 50c; 1000, $2.

SMALLEY'S No. 6 (P). Plant exceedingly strong and healthy; stands drouth well; berries average size, good color and productive. Per dozen, 20c; 100, 50c; 1000, $2.

SHYSTER (S). Robust, healthy plant; large strawberries. Per dozen, 25c; 100, 50c; 1000, $2.50.

SALZIE'ER'S EARLIEST (S). Early midseason; healthy; productive; full medium size; firm, good quality; good market variety. Per dozen, 30c; 100, 60c; 1000, $3.
SAMPLE (P). This new berry originated in Massachusetts; it is of large size, quite firm, conical in shape, through quality; commences to ripen midseason and continues until very late, keeping up a continued supply of large berries to the end; strong, vigorous and healthy foliage; a marvel of productiveness and now in great demand; hitherto sold enormously high; we are now enabled to offer it within the reach of everybody. Per dozen, 50c; 100, $1; 1000, $6.

SHUSTER GEM (S). Unusually strong, vigorous plant; fruit large, globular shaped; regular and uniform to end of season; beautiful bright scarlet color; moderately firm; unexcelled for a home market. Per dozen, 25c; 100, 50c, $1.

STEPHENS (S). An early variety; deep scarlet and firm. Per dozen, 55c; 100, 50c.

SANDERS (S). Strong, healthy, luxuriant grower and very great bearer; berry large to very large; conical, slightly flattened; dark, glossy red flesh; good shipper; midseason to late. Per dozen, 20c; 100, 50c, $1.

SANDOVAL (S). Medium size, productive, healthy and a good shipper. Per dozen, 25c; 100, 50c.

STAPLES (S). Medium to large; nearest approach to Warfield; healthy habit; great bearer; good shipper. Per dozen, 25c; 100, 50c.

STARR (S). New; comes highly recommended as productive and large size; a leading general purpose berry. Per dozen, 50c; 100, 75c.

SNOWBALL (S). Midseason to late; hardy and productive; medium size, conical shape; resembles Warfield. Per dozen, 25c; 100, 60c.

SEEK NO FARTHER (S). Perfectly hardy; healthy; prolific; large as Bubach, better shape and color. Per dozen, 50c; 100, 75c.

STERLING (S). An old standard sort; good grower and bearer in most localities; fruit large, good form, bright red, extra quality. Per dozen, 25c; 100, 50c, $1.

Seth Boyden's No. 30 (S). An old popular standard sort wherever known; plants healthy and robust; berry dark, roundish conical, dark shining red, sweet flavor; a No. 1 berry. Per dozen, 25c; 100, 50c; 1000, $2.50.

SWINDE (P). One of the latest to ripen; plant vigorous grower; large, rich glossy scarlet; berries firm. Per dozen, 30c; 100, 50c, 1000, $2.50.

SUNRISE (P). A vigorous growing, productive sort of the Crescent type; berries dark glossy scarlet; light flesh, moderately firm; a good home market sort. Per dozen, 25c; 100, 50c; 1000, $2.50.

SUCKER STATE (S). Fruit similar to Wilson, plant more vigorous; ripens late midseason. Per dozen, 25c; 100, 50c; 1000, $2.50.

Sharpless (S). Well known old standard sort, noted for its large size and productiveness; healthy, robust habit; fruit clear light red, with shining surface. Per dozn, 25c; 100, 50c, 1000, $2.

SHARPLESS IMPROVED (S). Seedling of Sharpless, rather more productive; berries large, broadly conical, but seldom illshaped like its parent; as to color, texture and quality fruit is the same. Per dozen, 25c; 100, 50c.

STONE'S EARLY (S). Noted for its earliness and other good qualities. Per dozen, 30c; 100, 75c.

SADIE (P). A wonderful productive variety of good color, shape, and excellent flavor; midseason; worthy of trial. Per dozen, 30c; 100, 50c.

SEAFORD (P). As large as Bubach, a much more vigorous grower and several days earlier, and more productive. Per dozen, 30c; 100, 50c.

Satisfaction (S). Berries heart shaped, always regular, flesh red, quite firm; ripens midseason; plant tall, healthy growth; productive. Per dozen, 25c; 100, 50c.

SMITH'S SEEDLING (S). Profitable market berry of fine quality; healthy and productive. Per dozen, 25c; 100, 50c; 1000, $2.

Smeutzer's Early (S). Plants vigorous and healthy; fruit ripens earlier than Michel, darker and more pointed; continues in bearing a long time; a good fertilizer; productive and a good shipper. Per dozen, 25c; 100, 50c, 1000, $2.

Southard (S). Berries large, conical, deep red scarlet, a pleasing flavor; a healthy, productive and valuable market sort. Per dozen, 25c; 100, 50c; 1000, $2.

Shuckless (S). In picking it parts readily from the shuck, the shuck remaining on the stem instead of the berry; good color; productive and one of the best garden sorts. Per dozen, 25c; 100, 50c; 1000, $2.

Stayman's No. 1 (P). Plant a vigorous, healthy and rapid grower; productive as Crescent, similar in form and size, but firmer and better quality; blooms late midseason. Per dozen, 25c; 100, 50c; 1000, $2.

SUNNYSIDE (P). Plants vigorous and immensely productive; good shipper; ripens late. Per dozen, 25c; 100, 50c, 1000, $2.

STANDARD (S). A vigorous and healthy grower; a dry, firm berry that keeps longer than most others. Per dozen, 25c; 100, 50c.

TUBBS (S). Large, firm, deep scarlet berry; good plant maker; vigorous and healthy; productive. Per dozen, 25c; 100, 50c, 1000, $2.

Tennessee Prolific (S). Good quality; good pollinizer; large size; fruit good color; productive; ranks among the best. Per dozen, 25c; 100, 50c; 1000, $2.

Timbrell (S). Noted for its late large berries; fine flavor when fully ripe; a solid crimson; succeeds well in most localities. Per dozen, 25c; 100, 50c; 1000, $2.

TIMBRELL IMPROVED (S). In most respects an improvement on the old variety. Per dozen, 25c; 100, 75c.

TENNISON (S). Berries bright scarlet, firm and of excellent quality; plant healthy and a fine grower, producing good spring crop with favorable season; a second crop ripens midseason. Per dozen, 30c; 100, 75c; 1000, $2.50.

TOPEKA (S). Strong, healthy plants; fine, showy berries in profusion; new. Per dozen, 30c; 100, 75c.

TIPPECANO (S). A beautiful berry; large, glossy, shining red; oblong shaped; fine flavor; sells well on account of its fine appearance. Per dozen, 30c; 100, 75c; 1000, $2.50.

TRIOMPH DE GAND (S). An old standard sort still retained for its beautiful glossy fruit and sweet high flavor; productive; requires rich, heavy soil and high culture. Per dozen, 30c; 100, 75c; 1000, $2.50.

UP TO DATE (S). It is supposed to be a seedling of Haverland; fertilized by Jessie, possessing the good qualities of both fruit of largest size; very regular in shape, being long, conical, slightly peaked, dark red to the center, retaining its fine color when canned, making it a most desirable variety for canning; fruit of a most delectable flavor, being a mild subacid; will remain solid on the vine several days after ripening; plant a strong, healthy grower. Per dozen, 35c; 100, 75c.

VICTOR HUGO (S). Plants robust, healthy growth; one of the largest and most productive of the early berries; highly colored and firm. Per dozen, 25c; 100, 60c; 1000, $2.50.
New Sweet Potatoes.

Early Bloomer. A new variety of the Yellow Nansemond; similar in habit, growth and yield; early in bloom, blooming profusely during the entire summer, which is a distinguishing feature of this variety.

Big Stem Early Yellow Nansemond. An improved variety of the Yellow Nansemond type. The plants and vines are of a more stocky growth. It is somewhat earlier and produces larger potatoes. With us it is a decided improvement.

Asparagus.

Asparagus usually sells at a good price, and being ready for market in April or May, the income derived from it is especially appreciated at that time of the year. It is usually planted on light soil to have it early, though it can easily be grown on all good garden soils. The sprouts are not usually cut until the second year after planting, except to mow down the canes in the fall. The roots will give good crops for from fifteen to twenty years after becoming well established, selling from $100 to $400 per acre, usually about $250 per acre. In preparing asparagus for market, cut the sprouts about four or five inches under ground, and when only from two to four inches high. Plant the roots in the spring, in four or six inches deep, covering with only three inches of soil at first, and filling in the trenches as the plants grow. Cultivate well at first, afterwards only early in the spring and in July or August.

Conover's Colossal. A mammoth variety of vigorous growth, sending up from fifteen to twenty sprouts each year, from one to two inches in diameter; color deep green and crown very close.

One and two year roots, $1 per 50; $1.50 per 100.

Columbian Mammoth White. It produces shoots that are white and remain so as long as fit for use. In addition to the marvelous advantage of its white color, the Columbian Mammoth White Asparagus is even more robust and vigorous in habit and throws larger shoots and more of them as the Conover's Colossal. Market gardeners, growers for canners, and amateurs should give this great acquisition a thorough trial.

Strong one and two year roots, per dozen, 50 cents; 50, $1; 100, $1.50.

Donald's Elmira. This new Asparagus has attracted much attention throughout the state, where it was originated by Mr. A. Donald, a prominent market gardener of Elmira. He has always realized handsome prices, and although a large grower, was unable to supply half the demand. The delicate green color is noticeable, different from either the famous Barr's Philadelphia, Mammoth or Palmetto, while the stalks are more tender and succulent. Its mammoth size can be realized from the fact that in whole crops a bunch of twelve stalks will average four pounds in weight. It requires much less labor in cutting and bunching, thus lessening the expense of marketing.

Strong one and two year roots, 50 cents per dozen; 50, $1; 100, $1.50.

Palmetto. Of southern origin, a variety of excellent quality, early, very large, very prolific, and all who have used it pronounce it ahead of any other.

Strong one and two year roots, 50 cents per dozen; 50, $1; 100, $1.00.

Barr's Philadelphia Mammoth. Early and large, and when placed on the market its appearance makes a demand for it while others drag.

One and two year roots, 50 cents per dozen; 50, $1.
Yellow Nansemond or Jersey Yellow.
Also known as Early Caroline or Jersey Yarn. A smooth, yellow variety, well adapted to a southern or a northern climate. A well known standard market sort.

Red Nansemond.
Similar to the above, of a bright red color and very productive.

Red Bermuda.
A pale red variety, yellow inside, grows very large, and a valuable, productive, early market sort.

White Bermuda.
Similar to the Red Bermuda in earliness and productiveness. On account of color it often sells better in the market.

Early Yellow or Pumpkin Yarn.
A new, early variety, smooth, short shaped, light yellow outside, deep, distinct orange yellow inside, a peculiarity in color attained by no other variety so distinct, cooking soft and sweet; very productive and showy, highly prized wherever known; has smooth light, light green leaves, and vines of robust, healthy habit, producing readily large crops from either vines or plants. Can supply all demands for this variety at customary rates.

Southern Queen.
Early and very productive, grows large, a yellownish white color, cooks very dry, growth short and smooth. One peculiarity of this variety is its short, thick vines, usually but 2 or 3 feet in length.

Red Spanish.
Dark red outside, yellow inside, solid and sweet; keeps well and yields well. Have bedded in quantities to supply all increased demands promptly for this variety.

Tennessee or Notched-Leaf Yellow Yarn.
A well known standard Southern variety, well adapted to this latitude, productive and noted for its fine flavor when cooked, and good keeping qualities. Can supply all demands for this variety.

Vineless or Bunch Yarn.
(Gold Coln.)
This new variety is undoubtedly a great acquisition in sweet potatoes, is highly prized and recommended where it has been grown. Its short, stubby vines being its great peculiarity, they rarely growing over 2 or 3 feet long, on this account can be planted closer in the rows, cultivated and dug easier than the running varieties. The tubers are always the average size, growing in a bunch near the surface, and it is claimed it stands the drouth better than the other varieties. Its leaves are notched similar to the Tennessee Notched-Leaf Yellow Yarn, of which it is undoubtedly a sport, possessing the same sterling merits as to table quality, and claimed to be more productive. We offer plants of this variety at 50 cents per 100; $3.50 per 1000; in lots of 5000 or more at $3 per 1000.

Arkansas Beauty.
A new, white Nansemond sweet potato. This new variety originated with us six years ago, and after a fair and impartial trial has proven itself a novelty of sterling merit, and we unhesitatingly recommend it as a decided acquisition and an improvement over the older sorts. In color it is pure white (the whitest sweet potato in existence), somewhat longer and smoother in shape than its parent, the Yellow Nansemond. Sets more potatoes to the vine, grows equally as large and of a more even size, and more productive, cooks dry and sweet, is beautiful, attractive, and its snowy white color will attract attention anywhere, and will prove a great market variety, one that has come to stay. We offer it again this season, and will guarantee it will give satisfaction.

New Arkansas Yellow Yarn.
This new variety originated with us four years ago, and has been thoroughly tested before offering it. The tubers are in color and shape similar to the Notched-Leaf Yellow Yarn or Tennessee, and is an improvement on that variety, having stronger vines and a smooth, dark green leaf; is equally as productive, and noted for its fine, soft, sweet, sugary flavor, and fine table qualities when cooked, and will become a favorite wherever grown. We offer a limited quantity of seed potatoes at $1 per peck, or $3.50 per bushel. Plants in their season at 50 cents per 100; $4 per 1000; in lots of 5000, $3 per 1000.

Florida Bunch Yarn:
This new variety originated in Florida. Has been on trial with us the past three years, and we have found it to be the earliest, largest and most prolific of the bunch varieties. The tubers are light yellow in color, usually round shaped, and noted for its fine table qualities when cooked, possessing the soft, sugary flavor to a remarkable degree—as in the old Yellow Yarn. Is more productive and a good keeper; has a smooth, dark green leaf, with short, thick vines, and is well adapted to this latitude. We offer plants of this variety at 40 cents per 100; $3.50 per 1000; in lots of 5000 or more, $3 per 1000.

Price per 100, 25 cents: for 1000, $2.50; in lots of 5000 and upward, $2 per 1000; special low rates on 25,000 and 50,000 lots on application.
VEGETABLE PLANTS.

CABBAGE PLANTS.
Early varieties, 15 cents per dozen; 50 cents per 100. Winter varieties, April, May and June, 10 cents per dozen; 30 cents per 100; $2.50 per 1000.

TOMATO PLANTS.
Best named leading sorts, April, May and June, 15 cents per dozen; 50 cents per 100; $3.50 per 1000.

PEPPER PLANTS.
Large Mango, in May or June, 25 cents per dozen; $2 per 100; $10 per 1000.

EGG PLANTS.

Secure in Any Other Way.

ROSE—Bridesmaid. The most beautiful pink rose known. It blooms continually and in great profusion.

ASPARAGUS PLUMOSUS NANUS. It is an excellent house plant, succeeding under almost any conditions.

AGERATUM—Princess Pauline. One of the most distinct new bedding plants.

GERANIUM—S. A. Nutt. A beautiful bright scarlet; always in bloom.

CHRYSANTHEMUM—Admiration. A soft pure creamy white, each petal tipped with shell pink; petals of irregular length, like satin ribbon.

BECONIA—M. de Lesseps. A very fine new begonia, with fine tropical foliage and elegant flowers.

GREVILLEA ROBUSTA. Makes magnificent pot plant for all sorts of decorative purposes.

SMILAX. Handsome climber; flowers are white and fleecy, profuse and fragrant.

FUCHSIA—Fairy Bell. One of the finest blooming varieties known.

TUBEROSE—The Pearl. Pure white, perfectly double, and delightfully fragrant.

HELIOTROPE. Indispensable for bouquets and vases of flowers. Their rich tints of lavender, blue and purple, and exquisite vanilla perfume, are familiar to all.

SWORD FERN. For house culture or for window gardening we don't know of any other variety that would give the same satisfaction.

Can you get so many plants for the money as in buying these popular cheap collections at 50 cents each.

$1.00 Collection of Shrubs and Vines $1.00

NO YARD OR LAWN IS COMPLETE without a few flowering shrubs and vines. When once planted they need but little care, and increase in size and beauty from year to year. In order to induce everybody to plant them we will for $1.00 send eight choice shrubs and vines, our selection of varieties, including Deutzias, Weigelas, Spireas, Honeysuckles, Syringas, etc., to the value of $1.50 or more at catalogue rates.

Eight Choice Varieties, our selection, all named, for $1.00.
THE PRINCESS BONNIE SET

Seven Superb, Free Flowering, Hardy Roses

FOR 50 CENTS.

SEVEN EXQUISITE ROSES FOR 50 CENTS! Celebrated for their sweetness, beauty, hardness and wonderful freedom of bloom; worth more than twice their number in unknown varieties, possessing little or no merit, because they are sure to grow and will give more bloom. To foster the love of roses—to encourage all who fear failure to a trial—and to prove that our roses are the best for home planting, surer to grow and quicker to bloom, we make the preparation of this set the object of special effort. The varieties selected are the best; they are noted for their vigorous constitutions, freedom of bloom and ease of culture. We excel all others in growing roses; our roses thrive where others fail. With this collection we make it possible for everyone to have the choicest roses—the best grown—at the lowest prices. You will miss a rare treat if you don’t give this set a trial. Order the “Princess Bonnie Set,” and when you see the results they give you will be more than satisfied with the small expenditure.

Bon Silene. Rosy crimson. Noted for the great size and beauty of its buds, which are valued very highly for bouquets and decorative purposes; deep rose color, sometimes bright, rosy crimson, occasionally pale light rose; splendid for outdoor cultivation. Price, 10 cents each.

Enchantress. This is a new Tea rose, introduced by William Paul & Sons, Waltham Cross, England, whose description we quote: “Flowers creamy white, slightly tinted with buff in the center; large, full and globular, the petals slightly recurved at the edges; of vigorous growth, fine foliage, and great freedom in blooming; a most distinct and effective Tea rose, of equal value for exhibition and decorative purposes; a splendid rose for pot culture and late autumn and winter blooming.” Price, 10 cents each.

Marie Van Houtte. A beautiful rose. This exceedingly lovely variety cannot be surpassed by any rose of its color. In the open ground it is truly magnificent. The flowers are extra large, very double and full, and are deliciously scented. The color is pale canary yellow, passing to rich creamy white, shaded with pale rose. It grows strong and sturdily, and blooms constantly and with great freedom. As an outdoor rose for bedding, massing or for single specimens it cannot be exceeded.

Price, 10 cents each.

Perle des Jardins. (Pearl of the Garden.) This magnificent yellow Tea Rose still retains its position as one of the very finest and most beautiful roses of its color ever introduced. The demand for it increases as its great value becomes better known, more plants being wanted year by year. The color is clear golden yellow, an indescribably rich and beautiful shade, and entirely distinct from any other variety; the flowers are extra large, full, globular form, with great depth and substance, richly perfumed and very beautiful in every way. Succeeds well in open ground, but is especially valuable for forcing for cut flowers.

Price, 10 cents each.

Princess Bonnie. The brightest, sweetest, hardest free blooming rose in existence. Such is Princess Bonnie. Color solid crimson, deeper and more vivid than Gen. Jacqueminet; fragrance far sweeter than La France; produces more perfect flowers than Clothilde Sonpert, the most prolific of all roses. For beauty and exquisite fragrance it is positively not equaled by any rose we know, while for continuity of bloom and vigorous, healthy growth—whether planted indoors or in open ground—it even surpasses a Geranium. It blooms all the time! Price, 10 cents each.

Sunset. Pure yellow. This grand rose is a great favorite wherever grown; the color is a rich golden amber or old gold, elegantly shaded with dark, ruddy crimson, resembling the beautiful tints seen in a summer sunset; the flowers and buds are extra large, full, finely formed and deliciously perfumed. It is a strong and vigorous grower and free bloomer, highly recommended both for open ground and house culture.

Price, 15 cents each.

The Bride. A sweet rose. A superb pure white Tea Rose, one of the best of its color. The buds and flowers are unusually large, finely formed, very double and full, and deliciously perfumed. It is a strong, healthy grower, and a quick and constant bloomer; does well in open ground and is particularly valuable for growing in greenhouse for cut flowers, as it produces abundantly, and its blooms are of the most desirable form and quality for floral work, bouquets, wreaths, etc. We notice in open ground the flowers are sometimes delicately tinged with pink, making it exceedingly attractive. Almost everyone who plants roses wants one or more Brides. There are many white roses, but none more satisfactory than this lovely variety.

Price, 10 cents each.

PRICES IN QUANTITIES.
Where marked 10 cts. each.....$0.60 for 50 cts.; $1 per doz.
Where marked 15 cts. each.....$1 for 50 cts.; $10 for $1.

SPECIAL INDUCEMENTS.

We always like to help those who help us, and will repay those liberally who will secure orders for us among their friends. In order to assist those whose wants are larger than their pocket-books, we have arranged a list of premiums or discounts. Thus by securing the orders of a few friends a person can get plants for almost nothing, or so many more for the same money that thousands take advantage of these.

LIBERAL TERMS.

We therefore make the following liberal offer, by which anyone can procure a lot of plants free, by spending a little time procuring orders.

Here Are Our Clubbing Rates and Discounts.

Anyone ordering $2.00 worth of plants, at price per single plant, can select extra plants from our catalogue to the value of

30 cents.

Anyone ordering $3.00 worth of plants, at price per single plant, can select extra plants from our catalogue to the value of

50 cents.

Anyone ordering $4.00 worth of plants, at price per single plant, can select extra plants from our catalogue to the value of

75 cents.

This distribution is subject only to the following conditions:

The above discounts apply to orders (Club or Individual) summed up at price per single plant, and cannot be given on special offers, collections, or on plants when priced by the dozen. You can readily see the reason for this, as we could not make you a special offer and give a discount besides.

How to Make up the Order.—Write each order separate, giving the full name of the person ordering, with the amount of the order. When the entire club is thus written, count up the total and select what is due you, according to the above discount, not forgetting to sign your name as sender of the club.

How We Pack Club Orders.—Each person’s plants will be packed separately, with his or her name attached, so you will have nothing to do but deliver the bundles. If the plants are to go by mail, and you desire them to be sent direct to the owners, we will do so when the individual orders amount to $1 or more.

PLEASE NOTICE.—Anyone getting up a club and wanting order sheets, envelopes, or extra catalogues, need only ask for them to have them cheerfully sent. Anything not perfectly plain in our offers and discounts will be quickly explained by letter.

Gratis Plants.

In addition to the above liberal terms we always add a liberal supply of gratis plants with every order. We always grow an unusually large stock of some of our choicest plants for the purpose of presenting them to those who favor us with their orders.

...OUR...
WARRANTS.

We warrant all money to reach us if sent according to our instructions. We warrant the plants to reach you in good growing condition. We warrant you will be well pleased with our manner of dealing; and We warrant you will tell all your friends where to buy plants.

We are determined that every package of goods we send out shall be perfectly satisfactory in every respect.
